beaches and sea grass covered dunes dazzle visitors where picturesque windmills provide evidence of an agrarian past and many Native American and Dutch place names still survive offering clues to the ethnic makeup of the area's population. Once home to occupying British troops, bootleggers and whaling captains, longtime home of fishermen, artists and duck farmers, the Hamptons are also known as the playground of the wealthy with fabulous shopping, dining and amenities, but don't be fooled, there's something for everyone in this lovely locale that's so close to New York City but a world away. Cover **Weekend Utopia** Alastair Gordon, 2001-05 The Hamptons are hot. Gordon, who grew up there, traces the invention of the idea of the Hamptons as a resort for the elite of New York City and shows how various forces including artists, real estate developers and media professionals transformed what had been a quiet rural place into a modern and worldwide phenomenon. 175 illustrations **Hampton's Magazine**, 1910 **John Dewey and the Dawn of Social Studies** C. Gregg Jorgensen, 2012-09-01 Founding documents, namely the 1916 Report on Social Studies, is the focus of John Dewey and the Dawn of Social Studies. Unraveling Conflicting Interpretations of the 1916 Report, which examines the Report in order to determine how it has been interpreted and regarded over time. The underlying question involved is: Which interpretation or interpretations most embodies the intent, goals and purpose of the 1916 Committee? Key members of the 1916 committee have been identified for extended research and analysis. One additional individual frequently quoted throughout the Report, John Dewey, received special consideration owing to his stature and influence in the U.S. and throughout the world. The wide variety of interpretations was examined within an organizational framework utilized to discuss and analyze the broad spectrum of interpretations that exist. This examination encompassed the existing theories, the meaning and intent of the 1916 committee, as well as the social and political aspects of the era. The overarching intent of founding documents in this case, the 1916 Report, is to make sense of the various scholarly interpretations and offer insights as to whether or not a consensus of opinion among scholars existed. Like all important founding documents whose authors have long since passed through the veil of history but whose work continues to influence us as scholars, social studies and history educators, and curriculum and instruction researchers want to know whose ideas are at the forefront of social studies, one of the most contested academic fields of study in America. *Adaptations* Deborah Cartmell, Imelda Whelehan, 2022 *Adaptations: Critical and Primary Sources* is a three-volume reference resource that brings together over 80 landmark texts in adaptation studies. Volume One covers the history of adaptation studies by plotting the prehistory of the field, beginning with Vachel Lindsay's classic *Art of the Moving Picture* (1915) through Virginia Woolf's classic essay on *The Cinema* through to some of the most important critical and theoretical interventions up until the 1990s when the area really emerges as a critical force in the academy. Volume Two collects essays from the last 25 years showing how the scholarly legacy laid out in Volume One still has a profound impact on adaptation studies today while charting the process of critical and theoretical maturation. This volume shows how adaptation studies has outgrown its contested place in the gap of film and literary studies and how its

interventions transcend disciplinary perspectives across the arts and humanities Volume Three covers key case studies such as Christine Geraghty's take on adapting Westerns Ian Inglis understanding of the transformation of music into movies and Eckart Voigts concept on Jane Austen and participatory culture 0With topics ranging from the limitations of the novel to adapting stage to screen contributions from a wide range of international scholars film critics and novelists combine to make Adaptations Critical and Primary Sources an original overview of critical debates today Cartmell and Whelehan introduce each excerpt and offer a critical overview of the collected work the rationale for its inclusion and suggestions for further reading

**Adaptation and Appropriation** Julie Sanders, 2015-11-19 From the apparently simple adaptation of a text into film theatre or a new literary work to the more complex appropriation of style or meaning it is arguable that all texts are somehow connected to a network of existing texts and art forms In this new edition Adaptation and Appropriation explores multiple definitions and practices of adaptation and appropriation the cultural and aesthetic politics behind the impulse to adapt the global and local dimensions of adaptation the impact of new digital technologies on ideas of making originality and customization diverse ways in which contemporary literature theatre television and film adapt revise and reimagine other works of art the impact on adaptation and appropriation of theoretical movements including structuralism post structuralism postcolonialism postmodernism feminism and gender studies the appropriation across time and across cultures of specific canonical texts by Shakespeare Dickens and others but also of literary archetypes such as myth or fairy tale Ranging across genres and harnessing concepts from fields as diverse as musicology and the natural sciences this volume brings clarity to the complex debates around adaptation and appropriation offering a much needed resource for those studying literature film media or culture
