Handbook Of Contemporary Group Psychotherapy:

Handbook of Contemporary Group Psychotherapy Robert H. Klein, Harold S. Bernard, David L. Singer, 1992 This book constitutes the first comprehensive effort to bridge the gap between contemporary psychoanalytic theory and group psychotherapy practice While many practitioners have difficulty applying contemporary theoretical concepts to individual psychotherapy there are at least a number of efforts to do so in the extant literature The present volume represents the first systematic effort to identify the relevance of object relations theory self psychology and social systems theory to the conduct of group treatment These theoretical schools represent the major elaborations of psychoanalytic theory over the past thirty years Their major concepts and underlying assumptions are complex and experienced by many as difficult to understand The authors who have contributed to this volume have been chosen because of their ability to explain their theoretical positions lucidly and to make clear the applicability of their perspectives to day to day clinical work The book is rich with clinical vignettes from actual group therapy sessions this allows the reader to see how theoretical constructs can be used in concrete ways to help patients change and grow The book is divided into three sections Recent Theoretical Developments Clinical Applications to Patient Care and The Role of the Therapist Each section includes a summary chapter which highlights the points of convergence and divergence among the three perspectives discussed The book ends with a concluding chapter which assesses the current status of attempts to integrate current psychoanalytic theory with the practice of group psychotherapy

Principles of Group Psychotherapy Francis J. Kaklauskas, Les R. Greene, 2019-08-22 Core Principles of Group Psychotherapy is designed as the primary curriculum for the Principles of Group Psychotherapy course in partial fulfillment of the Certified Group Psychotherapist credential awarded by the International Board for Certification of Group Psychotherapists. The text is divided into five modules: foundations, structure and dynamics, formation and development, leadership tasks and skills, and ethics, neuroscience, and personal style. The book is part of the AGPA Group Therapy Training and Practice series. This series aims to produce the highest quality publications to aid the practitioner and student in updating and improving their knowledge, professional competence, and skills with current and new developments in methods, practice, theory, and research in the group psychotherapy field. In addition to helping group psychotherapists bolster their skills so as to ensure the availability of quality mental health services, this guide is an essential resource for students and clinicians interested in learning more about group psychotherapy as a text in academic courses or as part of a practicum or internship training curriculum.

Basics of Group Psychotherapy Harold S. Bernard, K. Roy MacKenzie, 1994-08-05 Filling a significant gap in the clinical literature, this unusually practical manual addresses the nuts and bolts issues involved in conducting group therapy. Featuring contributions from leading experts in the field, the volume covers everything from determining which patients will benefit from a group experience to step-by-step instructions for running group sessions as effectively as possible. A hands-on manual, the volume is also an ideal companion to a basic text on group psychotherapy. Organized in a unique logical sequence, the chapters begin with an explanation of how to select patients for a particular group intervention and how groups are composed. The different stages of group interaction over time are then covered in detail, as are the changing aspects of the therapist's role during the various stages. Setting forth basic principles of group technique, including the management of resistance, transference, primitive group dynamics, and countertransference, a clear distinction is drawn between the roles of therapists conducting group treatment and therapists working in other treatment modalities.

Group Psychotherapy for People with Chronic Mental Illness Walter N. Stone, 1996-02-02 Providing a cost-effective treatment model that is respectful of patients' needs, strengths, and limitations, this book presents the first dynamic and coherent approach to group treatment for the chronically mentally ill. By structuring members' variable attendance, the flexibly bound model, which utilizes group dynamic principles to maximize therapeutic opportunities, respects the actual behavior of many chronically ill persons, making this treatment format available to a broad portion of this population. Illustrated with numerous case vignettes, the book outlines the elements of supportive treatment and therapeutic goals and then describes in detail specific strategies and interventions.

The Leader on the Couch Manfred F. R. Kets de Vries, 2011-01-31 Despite the proven benefits of emotional intelligence organizational life has typically been hostile to the inner world of feeling Rationality is deemed superior to feeling which can contaminate judgment But without feeling there is no passion and no action This book sets out to change people and organizations for the better by revealing the dark side of leadership behaviour and its impact on performance Tapping into the startling parallels between the journey to emotional intelligence the process of psychoanalysis the practice of leadership coaching and the Zen journey to enlightenment renowned thinker Manfred Kets de Vries helps executives consultants and coaches to peel back the layers of self deception and reveal how inner personality largely hard wired since early childhood affects the way they lead and manage others

Religious Experience and Self-Psychology Jung Eun Jang, 2016-11-09 This book explores the 1907 Korean Revival Movement from a self psychological perspective The examination of the psychological processes in the movement based on Heinz Kohut s self psychology can shed light on religious experiences as selfobject experiences by identifying the sense of defeatedness and helplessness that Korean people experienced under Japanese occupation as what Kohut calls self fragmentation of the Korean group self and explaining its therapeutic functions which facilitate potential for the narcissistic

nourishment of the fragmented group self leading to renewed self esteem transformation and empowerment of the Korean people Korean people in the early 1900s experienced abuses and oppression by corrupt officials and exploitation by Japanese government Through religious experiences which emphasized the individual repentance the experience of God through the spirit emphasis on prayer and eschatological faith the Korean Revival Movement in 1907 enabled its followers to experience mirroring and idealizing selfobjects which function as a role of transforming the lower shape of narcissism into the higher one
