Inventions of Nemesis Douglas Mao, 2020-11-10 A wide ranging reevaluation of utopian literature and philosophy from Plato to Chang Rae Lee Examining literary and philosophical writing about ideal societies from Greek antiquity to the present Inventions of Nemesis offers a striking new take on utopia's fundamental project Noting that utopian imagining has often been propelled by an angry conviction that society is badly arranged Douglas Mao argues that utopia's essential aim has not been to secure happiness order or material goods but rather to establish a condition of justice in which all have what they ought to have He also makes the case that hostility to utopias has frequently been associated with a fear that they will transform humanity beyond recognition doing away with the very subjects who should receive justice in a transformed world Further he shows how utopian writing speaks to contemporary debates about immigration labor and other global justice issues Along the way Inventions of Nemesis connects utopia to the Greek concept of nemesis or indignation at a wrong ordering of things and advances fresh readings of dozens of writers and thinkers from Plato Thomas More Nathaniel Hawthorne Edward Bellamy Charlotte Perkins Gilman and H G Wells to John Rawls Robert Nozick Fredric Jameson Ursula Le Guin Octavia Butler and Chang Rae Lee Ambitious and timely Inventions of Nemesis offers a vital reconsideration of what it really means to imagine an ideal society

Interweaving Innocence Heather M. Gorman, 2016-12-29 In this study Heather Gorman analyses Luke's portrayal of Jesus' death in light of the ancient rhetorical tradition particularly the progymnasmata and the rhetorical handbooks In addition to providing a detailed up to date exegetical study of Luke 22 66 23 49 she argues three things First

through the strategic placement of rhetorical figures and the use of common topics associated with refutation and confirmation Luke structures his passion narrative as a debate about Jesus' innocence which suggests that one of Luke's primary concerns is to portray Jesus as politically innocent. Second ancient examples of synkrisis suggest that part of the purpose of Luke's characterisation of Jesus in the passion narrative especially when set in parallel to Paul and Stephen in Acts was to set up Jesus as a model for his followers lest they face similar persecution or death. Finally Luke's special material and his variations from Mark are explicable in terms of ancient compositional techniques especially paraphrase and narration and thus recourse to a special Passion Source is unnecessary.

The Cambridge Companion to Ancient Rhetoric Erik Gunderson, 2009-07-09 Rhetoric thoroughly infused the world and literature of Graeco-Roman antiquity. This Companion provides a comprehensive overview of rhetorical theory and practice in that world from Homer to early Christianity accessible to students and non-specialists whether within classics or from other periods and disciplines. Its basic premise is that rhetoric is less a discrete object to be grasped and mastered than a hotly contested set of practices that include disputes over the very definition of rhetoric itself. Standard treatments of ancient oratory tend to take it too much in its own terms and to isolate it unduly from other social and cultural concerns. This volume provides an overview of the shape and scope of the problems while also identifying core themes and propositions for example persuasion, virtue and public life are virtual constants. But they mix and mingle differently and the contents designated by each of these terms can also shift.

Classical Rhetorical Argumentation for the Rhetorical Critic Mika Hietanen, 2025-07-08 This book offers a reassessment of argumentation in classical rhetoric foregrounding its rational dimension. Moving beyond introductions it provides insights from Aristotle, Quintilian and other ancient thinkers while addressing common misconceptions and offering clarifications that are particularly valuable for the rhetorical critic. Adopting a Scandinavian rhetorical perspective this book argues that classical rhetoric offers enduring tools for both the analysis and the construction of persuasive argumentation. By bridging theory and practice it demonstrates how classical rhetoric remains highly relevant while also naturally integrating with analyses that focus on classical concepts such as ethos, pathos or style whether through neo-Aristotelian methods or contemporary approaches rooted in the classical rhetorical tradition. Key concepts are explored in dedicated chapters: the art of logos-based argumentation is reassessed, enthymeme and epicheireme structures are examined and *topoi* and *staseis* are discussed in relation to their later developments. A chapter on the centenary of rhetorical criticism traces its evolution from Herbert Wichelns 1925 to today proposing a new template for the rhetorical critic. This concise yet comprehensive book will interest intermediate and advanced students as well as scholars of rhetoric, argumentation, persuasion, speech and writing studies and communication studies.

The Rhetoric of the Gospel, Second Edition C. Clifton Black, 2013-07-29 While most books on biblical rhetoric focus primarily on the epistles this volume from prominent scholar C. Clifton Black considers the variety of rhetorical critical approaches now being applied to the Gospels including Luke Acts. This updated edition takes
