discussions of high altitude medicine improvisation technical rescue telemedicine ultrasound and wilderness medicine education Ten new chapters cover Acute High Altitude Medicine and Pathophysiology High Altitude and Pre Existing Medical Conditions Cycles Snowmobiles and other Wilderness Conveyances Medical Wilderness Adventure Races MedWAR Canyoneering and Canyon Medicine Evidence Based Wilderness Medicine National Park Service Medicine Genomics and Personalized Wilderness Medicine Forestry and Earth Sciences 30 Expert Consult online videos cover survival tips procedural demonstrations and detailed explanations of diseases and incidents Expert Consult eBook version included with purchase This enhanced eBook experience allows you to search all of the text figures images videos and references from the book on a variety of devices

Respiratory Disease Robert L Wilkins,James R Dexter,Philip M Gold,2006-09-22 Now edited by a pulmonologist the 3rd edition is still one of the most well written texts for students learning to understand the assessment and treatment of patients with respiratory disease Each chapter begins with a background of selected disorders followed by a case study with questions and answers designed to stimulate critical thinking skills

World Report on Child Injury Prevention M. M. Peden,2008 Child injuries are largely absent from child survival initiatives presently on the global agenda Through this report the World Health Organization the United Nations Children s Fund and many partners have set out to elevate child injury to a priority for the global public health and development communities It should be seen as a complement to the UN Secretary General s study on violence against children released in late 2006 that report addressed violence related or intentional injuries Both reports suggest that child injury and violence prevention programs need to be integrated into child survival and other broad strategies focused on improving the lives of children Evidence demonstrates the dramatic successes in child injury prevention in countries which have made a concerted effort These results make a case for increasing investments in human resources and institutional capacities Implementing proven interventions could save more than a thousand children s lives a day p vii
