Bengtson,Timothy J. Biblarz,Robert E. L. Roberts,2002-10-17 How Families Still Matter casts doubt on the conventional wisdom about family decline during the last decades of the twentieth century The authors draw from the longest running longitudinal study of families in the world the Longitudinal Study of Generations conducted at the University of Southern California to discover whether parents are really less critical in shaping the life choices and achievements of their children than they were a generation ago They compare the influence of parents on self confidence values and levels of achievement on the Baby Boomer generation with that of Baby Boomer parents on their own Generation X children The findings may surprise many readers Generation X youth showed higher levels of education career attainments and self esteem than their parents as youth and similar values were found across generations They indicate the resilience of family bonds across generations even against the backdrop of massive social and family changes since the 1960s *The Blackwell Companion to the Sociology of Families* Jacqueline Scott,Judith Treas,Martin Richards,2008-04-15 Tackling issues relevant to family life today this authoritative Companion shows why studying social change in families is fundamental for understanding the transformations in individual and social life across the globe Contains original essays by expert contributors on a wide range of topics relating to the sociology of families Includes coverage of social inequality parenting practices children s work the changing patterns of citizenship and multi cultural families Gives special attention to European and North American examples Discusses previously neglected groups including immigrant families and gays and lesbians Explores how revolutionary changes in aging longevity and sexual behavior have radically affected the experience of different generations and the relationships between them **The Aging Family** Terry Hargrave,Suzanne Midori Hanna,2013-06-17 As the population of the United States ages

and the lifespan increases so does the number of living generations The mental health care delivery system therefore faces new challenges The United States is heading into the 21st century with multigenerational families now commonplace with up to four or five generations co existing at the same time And each generation is forced to deal with its own developmental transitions as well as complex cross generational issues When a therapist steps into this situation his or her role has to take on board the complexity of the whole family system This text highlights the issues that hold families together and often tear them apart It offers core perspectives that seek to make the work of intervention easier and more effective for the clinician Whether the therapist is called upon to intervene on behalf of elder members to deal with issues such as depression or to step in when younger members are trying to determine how best to provide eldercare the perspectives presented in The Aging Family aim to enrich the strategies used Handbook of Aging Issues (Preliminary Edition) Gregory Harris, 2017-11-21 A Handbook on Aging A Multidisciplinary Perspective with Critical Readings presents research and scholarly readings on the experiences of older adults and the challenges they face The anthology includes works from a variety of disciplines that serve to highlight the diversity and complexity of these issues in contemporary society The text is organized into seven broad units each featuring multiple chapters on topics including general perspectives and concepts related to aging the various dimensions of aging family caregiver experiences and challenges interpersonal relationships sexuality and gender dynamics in aging health and the future of aging All units have original introductions and conclusions that place the readings in a broader context and question sets to use for in class discussions or as writing prompts A portion of the book is devoted to solution driven interventions and policies that focus on positive aspects of aging and improved well being Broad in scope thoughtful in coverage and highly illuminating A Handbook on Aging is an excellent resource for scholars advanced undergraduates graduate students policy makers and practitioners in the fields of gerontology social work psychology and family science **Family Stress** Pauline Boss, Carol Mulligan, 2003 Why do some families rebound from stress with seeming ease while others seem to struggle This anthology comprised of 23 major articles from the family stress literature addresses questions such as the increasingly diverse and complex family situations of stress and crisis This volume provides the family stress community with an accessible coherent compilation of writings by past present and emerging family stress scholars The reader includes classic and current writings from multi disciplinary streams of work in family social science social work nursing family sociology family therapy and family psychology Key Features Culture and Context With an eye toward more culturally inclusive theories the selected readings address how culture and context both aid and impede family resilience Clarity An overall introduction and section introductions by Pauline Boss provide context for each individual reading and coherence for the book as a whole Critical Thought A critical thinking focus outlined in chapter introductions encourages students researchers and practitioners to expand their own thinking about the concepts and models of family stress and coping to guide the development of future work in this field Crossover Coverage Designed to

parallel coverage in Pauline Boss's best selling text *Family Stress Management* Second Edition this collection of readings should nonetheless serve as a valuable resource on its own and in tandem with other texts in this area Recommended for upper division undergraduate and master's students in departments of or courses related to Sociology Marriage Family Therapy and Family Studies Also suggested for professionals and practitioners working with families in social work nursing family therapy and family psychology settings

Mothers and Their Adult Daughters Karen L. Fingerman, Ph.D, 2009-12-02 The mother daughter tie takes on unique characteristics as daughters enter midlife and mothers enter old age Incorporating vivid descriptions by mothers and daughters about their relationships this book addresses both the rewards and the difficulties mothers and daughters experience in maintaining their relationships into old age Based on interviews with 48 mothers over age 70 and their adult daughters Dr Fingerman begins with an overview of this relationship which she points out can be distinguished from other social ties by the strength of the mother daughter bond Next she discusses the positive features of this bond and various theories about its social and psychological nature This discussion is followed by an examination of problems encountered between mothers and daughters The last section looks at reactions of mothers and daughters to tensions conflicts communication problems and other difficulties This excellent study will be of interest not only to researchers in women's and family studies but any mother and daughter
