Bruc ealles well Marc Lodewijckx, 2004 The essays in this book are about the peoples of North West Europe in the first millennium AD They were written by archaeologists from various countries who either reveal the results of

their archaeological fieldwork or place the knowledge they have of their particular region in a wider supraregional context It is commonly known that archaeologists prefer to devote their time to fieldwork Considering the limited number of archaeologists and the multitude of opportunities for fieldwork this preference is quite understandable if not even obvious In addition to this essay writitng is a cumbersome and exhausting activity The warm and enthusiastic response to our request for contributions made it possible ot compose an interesting volume We hope that this publication may encourage many others to remain active in the field of archaeology and that the cooperation among colleagues stimulated by this project may be continued in the future *Dialogues d'histoire ancienne* ,1994 **The Princeton Encyclopedia of Classical Sites**

Richard Stillwell,2017-03-14 Here are over 1 000 pages of authoritative information on the archaeology of Greek and Roman civilization The sites discussed in the more than 2 800 entries are scattered from Britain to India and from the shores of the Black Sea to the coast of North Africa and up the Nile They are located on sixteen area maps keyed to the entries The entries were written by 375 scholars from sixteen nations many of whom have worked at the sites they describe Until now our knowledge of the Classical period has been scattered in hundreds of sources dating from antiquity to our own times This volume provides essential information on work accomplished in progress and still to be undertaken Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Archaeological and Historical Aspects of West-European Societies**

Marc Lodewijckx,1996 The contents of this volume of essays in his honour gives a good overview of the fields in which Prof Van Doorselaer has been active throughout his academic career This book is especially an Album Amicorum filled with reminiscences and intentions to continue the work The voluminous size of this book may be considered as an adequate measure of the overall sympathy for Prof Van Doorselaer We hope that this publication may encourage him to remain active in the field of archaeology and that the co operation among colleagues stimulated by this project may be continued in the future *Revue archéologique de l'ouest* ,2006 **Integration in the Early Roman West** Jeannot Metzler,1995 R merzeit
