Schueler,2012-12-06 The almost complete disregard of the verse epic as a genre still worthy of meaningful discussion and earnest investigation is all too apparent in German literary criticism The only attempt to view the genre in its evolution through the centuries is Heinrich Maiworm s valuable but necessarily somewhat perfunctory historical survey of the German epic which appeared in the second volume of Deutsche Philologie im Auf iss There is as yet however no literary study of the German verse epic in the nineteenth and twentieth centuries a period which is of particular interest to such a study and indeed crucial to the genre itself since it was during this period that the novel claimed its final and apparently irrevocable victory over its predecessor a form which had once been hallowed but was now declared a dead genre It is not the lack of sufficient material that could explain this neglect for in terms of sheer quantity and we believe not quantity alone there is enough material for more than one study The prime purpose of this work then is to attempt if not to fill this conspicuous gap at least to begin narrowing it somewhat and in so doing to determine in how far the continuing existence of this vacuum in German literary appreciation is in fact justified *The day mothchild left it's treehouse. Life is a Story - story.one* Aivi Faye Feiler,2024-09-05 I told mothchild it could just run away climb the old oak tree hide in a house held by branches where it could stay Mothchild has grown some beautiful wings but it can not fly Until one day it discovers a mysterious light beyond the forest and decides it is time to go off on adventures to find it Poetry on growth reflection and the path to adulthood
