The Cambridge Companion to Modern Russian Culture Nicholas Rzhevsky, 2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past [Mining for Jewels](#) Philip Cavendish, 2000 Evgenii Zamiatin's reputation rests on the pivotal role he played in the development of Russian modernism Hitherto however critical engagement with the experimental nature of his fiction has been largely confined to his middle period the satirical stories set in Great Britain the dystopian novel *My* and related works As a writer who came to prominence at the time of the October Revolution Zamiatin is best known as an early and vocal critic of the new culture of conformism and as the author in the 1920s of various artistic manifestoes in which he engaged with the problem of literature's future in relation to the Revolution and sought to articulate his own brand of synthetic modernism This study presents a different and complementary view of Zamiatin as a writer whose fiction whilst certainly modernist conformed to what Eikhenbaum termed literary Populism Zamiatin's intimate knowledge of the Russian provinces and the world of folk religious culture are key elements in the *skaz* style conceit which underpins his early fiction This study stresses Zamiatin's enormous debt to such writers as Leskov and Remizov and locates his work within a rich tradition of ethnographic belles lettres and oral based fiction The texts analysed exploit materials from the folk religious imagination in an attempt to refresh and democratize the literary language through the use of the peasant vernacular Zamiatin sought immediacy and dynamism in his provincial prose and his works in this mould are best appreciated through the prism of twentieth century neoprimitivism and expressionism Their *lubok* style simplicity however conceals a complex attitude towards the folk religious world at their core The poetic and celebratory is balanced by the sceptical and ironic and the resulting tension characterizes these texts as essentially modernistic

Autobiographical Statements in Twentieth-Century Russian Literature Jane Gary Harris, 2014-07-14 The fifteen essays in this volume explore the extraordinary range and diversity of the autobiographical mode in twentieth century Russian literature from various critical perspectives They will whet the appetite of readers interested in penetrating beyond the canonical texts of Russian literature The introduction focuses on the central issues and key problems of current autobiographical theory and practice in both the West and in the Soviet Union while each essay treats an aspect of autobiographical praxis in the context of an individual author's work and often in dialogue with another of the included writers Examined here are first the experimental writings of the early years of the twentieth century Rozanov Remizov and Bely second the unique autobiographical statements of the mid 1920s through the early 1940s Mandelstam Pasternak Olesha and Zoshchenko and finally the diverse and vital contemporary writings of the 1960s through the 1980s as exemplified not only by creative writers but also by scholars by Soviet citizens as well as by emigres Trifonov Nadezhda Mandelstam Lydia Ginzburg Nabokov Jakobson Sinyavsky and Limonov Originally published in 1990 The Princeton Legacy Library uses the

Columbia Dictionary of Modern European Literature Jean Albert Bédé, William Benbow Edgerton, 1980 With more than 1800 critical entries on the writers and literatures of 33 languages this work presents the entire range of modern European writing from the symbolist and modernist works rooted in the last decades of the nineteenth century through the avant garde and existentialist movement to Barthes Blanchot Breton and continental thought pertinent today *Optical Play* Julia Bekman Chadaga, 2014-10-31 Chadaga's ambitious study proceeds from the idea that glass in its uses as a material object and as it was depicted in works of art is a key to understanding the evolution of Russian identity from the eighteenth century to the middle of the twentieth **Discourses of Regulation and Resistance** Samantha Sherry, 2015-06-14 Despite tense relations between the USSR and the West Soviet readers were voracious consumers of foreign culture and literature This book explores this ambivalent and contradictory attitude and employs in depth analysis of archive material to offer a comprehensive study of the censorship of translated literature in the Soviet Union Modern Dystopian Fiction and Political Thought Adam Stock, 2018-10-26 Over the past few years dystopia has become a word with increasing cultural currency This volume argues that we live in dystopian times and more specifically that a genre of fiction called dystopia has above others achieved symbolic cultural value in representing fears and anxieties about the future As such dystopian fictions do not merely mirror what is happening in the world in becoming such a ready referent for discussions about such varied topics as governance popular culture security structural discrimination environmental disasters and beyond the narrative conventions and generic tropes of dystopian fiction affect the ways in which we grapple with contemporary political problems economic anxieties and social fears The volume addresses the development of the narrative methods and generic conventions of dystopian fiction as a mode of socio political critique across the first half of the twentieth century It examines how a series of texts from an age of political extremes contributed to political discourse and rhetoric both in its contemporary setting and in the terms in which we increasingly cast our cultural anxieties Focusing on interactions between temporality spatiality and narrative the analysis unpicks how the dystopian interacts with social and political events debates and ideas Stock evaluates modern dystopian fiction as a historically responsive mode of political literature He argues that amid the terrors and upheavals of the first half of the twentieth century dystopian fiction provided a unique space for writers to engage with historical and contemporary political thought in a mode that had popular cultural appeal Combining literary analysis informed by critical theory and the history of political thought with archival based historical research this volume works to shed new light on the intersection of popular culture and world politics It will be of interest to students and scholars in
