Life Designs A Novel:

Written in Life's Design Danielle E. Craig, 2011-10-04 *Written in Life's Design* Is a book of poetic and left of center poetic writings describing life's experiences. Aimed to inspire, define and help guide those of us who are unsure where to turn next. Inside you will find a multitude of diversity. Each page has its own story to tell; each chapter will paint a portrait in your head and the book in whole will inspire you. You can read it from front to back but to optically indulge your senses I recommend reading it piece by piece. May this book entertain and delight you the way it did me while writing it. *Reading the Canon* Philipp Löffler, 2017-03-02 *Reading the Canon* explores the relation between the production of literary value and the problem of periodization, tracing how literary tastes, particular reader communities and sites of literary learning shape the organization of literature in historical perspective. Rather than suggesting a political critique of the canon, this book shows that the production of literary relevance and its tacit hierarchies of value are necessary consequences of how reading and writing are organized as social practices within different fields of literary activity. *Reading the Canon* offers a comprehensive theoretical account of the conundrums still defining contemporary debates about literary value. The book also features a series of historically inflected author studies from classics such as Shakespeare and Thomas Pynchon to less likely figures such as John Neal and Owen Johnson that illustrate how the idea of literary relevance has been appropriated throughout history and across a variety of national and transnational literary institutions. *The Experimental Book Object* Sami Sjöberg, Mikko Keskinen, Arja Karhumaa, 2023-11-30 *The Experimental Book Object* shows why and how books matter in the 21st century. Digital and audio platforms are commonplace and other fields of art beyond literature have increasingly embraced books and publication as their medium of choice. Nevertheless, the manifold book object persists and continues to inspire various types of experimentation. This volume sets forth an unprecedented approach where literary and media theory are entangled with design practitioners' artistic research and process descriptions. By probing the paradigm of the codex, this collection of essays focuses on historical and contemporary experimentation that has challenged what books are and could be from the perspectives of materiality, mediation and visual and typographic design. Investigations into less studied areas and cases of performativity demonstrate what experimental books do by interacting with their systemic and cultural environments. The volume offers a multifaceted and multidisciplinary view of the book object, the book design and publishing processes and their significance in the digital age. **The Publisher**, 1908 **Women's University Fiction, 1880-1945** Anna Bogen, 2015-10-06 The rise of the middle classes brought a sharp increase in the number of young men and women able to attend university. Developing in the wake of this increase, the university novel often centred on male undergraduates at either Oxford or Cambridge. Bogen argues that an analysis of the lesser known female narratives can provide new insights. *The Unseen Link: Uncovering the Secrets of Life's Design* Pasquale De Marco, Embark on a profound journey into the unseen realms of existence with Pasquale De Marco's captivating new book *The Unseen Link: Uncovering the Secrets of Life's*

Sustainability assessment of concrete bridge deck designs in coastal environments using neutrosophic criteria weights Ignacio J. Navarro, Victor Yepes,Jose V. Mart, Essential infrastructures such as bridges are designed to provide a long lasting and intergenerational functionality In those cases sustainability becomes of paramount importance when the infrastructure is exposed to aggressive environments which can jeopardise their durability and lead to significant maintenance demands The assessment of sustainability is however often complex and uncertain The present study assesses the sustainability performance of 16

alternative designs of a concrete bridge deck in a coastal environment on the basis of a neutrosophic group analytic hierarchy process AHP The use of neutrosophic logic in the field of multi criteria decision making as a generalisation of the widely used fuzzy logic allows for a proper capture of the vagueness and uncertainties of the judgements emitted by the decision makers TOPSIS technique is then used to aggregate the different sustainability criteria From the results it is derived that only the simultaneous consideration of the economic environmental and social life cycle impacts of a design shall lead to adequate sustainable designs Choices made based on the optimality of a design in only some of the sustainability pillars will lead to erroneous conclusions The use of concrete with silica fume has resulted in a sustainability performance of 46.3% better than conventional concrete designs

The Art of Faulkner's Novels Peter Swiggart, 2014-09-01 To say that the entirety of human experience can be a novelist's theme is to voice an absurdity But as Peter Swiggart convincingly argues Faulkner's work can be viewed as an extraordinary attempt to transform the panorama of man's social experience into thematic material Faulkner's two dimensional characters his rhetorical circumlocutions and his technical experiments are efforts to achieve a dramatic focus upon material too unwieldy at least in principle for any kind of fictional condensation Faulkner makes use of devices of stylization that apply to virtually every aspect of his successful novels For example the complex facts of Southern history and culture are reduced to the scale of a simplified and yet grandiose social mythology the degeneration of the white aristocracy the rise of Snopesism and the white Southerner's gradual recognition of his latent sense of racial guilt Within Faulkner's fictional universe human psychology takes the form of absolute distinctions between puritan and nonpuritan characters between individuals corrupted by moral rationality and those who are simultaneously free of moral corruption and social involvement In this way Faulkner is able to create the impression of a comprehensive treatment of important social concerns and universal moral issues Like Henry James he makes as much as he can of clearly defined dramatic events until they seem to echo the potential complexity and depth of situations outside the realm of fiction When this technique is successful the reader is left with the impression that he knows a Faulkner character far better than he could know an actual person At the same time the character retains the atmosphere of complexity and mystery imposed upon it by Faulkner's handling of style and structure This method of characterization reflects Faulkner's simplifications of experience and yet suggests the inadequacy of any rigid interpretation of actual behavior The reader is supplied with special eyeglasses through which the tragedy of the South as well as humanity's general inhumanity to itself can be viewed in a perspective of simultaneous mystery and symbolic clarity
