

The background image is a dramatic, low-angle shot of a dark, gothic-style castle perched on a rocky cliff. The sky is a mix of orange, yellow, and purple, suggesting a sunset or sunrise. In the foreground, three figures are visible: a man in a blue robe with a white halo-like glow around his head, a man in a blue tunic holding a bow, and a dark, winged creature. The overall mood is mysterious and epic.

Griffin, 2012-11-30

Glastonbury a small town in Somerset England stands at the epicenter of a longstanding tradition placing the Holy Grail in Britain Legend holds that Joseph of Arimathea traveled to Britain bringing with him both a gathering of followers and the cup that Jesus used at the last supper He is said to have buried the Grail at Glastonbury where some claim he founded the first church in England This volume chronicles one man's personal quest to find historical evidence supporting the traditional beliefs surrounding Joseph of Arimathea and the Holy Grail in southern England Bolstered by an abundance of evidence supporting the presence of Joseph in 1st Century Britain he separates his findings from the fantasy of the Grail Romances answering questions about the Grail and the origins and progressions of its legend *Improvised Explosive Devices* James Revell, 2016-07-15 This book begins with an account of the evolution of improvised explosive devices using a number of micro case studies to explore how and why actors have initiated IED campaigns how new and old technologies and expertise have been exploited and how ethical barriers to IED development and deployment have been dealt with It proceeds to bring the evidence from the case studies together to identify themes and trends in IED development before looking at what can realistically be done to mitigate the threat of IEDs in the new wars of the twenty first century The book suggests that the advance and availability of a combination of technological factors in conjunction with changes in the nature of contemporary conflicts have led to the emergence of IEDs as the paradigmatic weapons of new wars However their prevalence in contemporary and future conflicts is not inevitable but rather depends on the willingness of multiple sets of actors at different levels to build a web of preventative measures to mitigate if not eradicate IED development and deployment *The Frontline Years* E.
