Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that

have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

Sound and Form in Modern Poetry Harvey Seymour Gross, 1964 Aberration in Modern Poetry Lucy Collins, Stephen Matterson, 2011-12-22. This critical work considers the role played by elements that might be considered aberrational in a poet's oeuvre. With an introductory essay exploring the nature of aberration, these fourteen contributions investigate the work of major 20th century poets from the U.S., Britain, Ireland, Australia and New Zealand. Aberration is considered from the standpoint of both the artist and the audience, prompting discussion on a range of important issues including the formation of the canon. Each essay discusses the status of the aberrant work and the ways in which it challenges, enlarges or supports the overall perception of the poet.

The Poetry Handbook John Lennard, 2006-01-06. The Poetry Handbook is a lucid and entertaining guide to the poet's craft and an invaluable introduction to practical criticism for students. Chapters on each element of poetry from metre to gender offer a wide-ranging general account and end by looking at two or three poems from a small group, including works by Donne, Elizabeth Bishop, Geoffrey Hill and Nobel Laureate Derek Walcott, to build up sustained analytical readings. Thorough and compact, with notes and quotations supplemented by detailed reference to the Norton Anthology of Poetry and a companion website with texts, links and further discussion, The Poetry Handbook is indispensable for all school and undergraduate students of English. A final chapter addresses examinations of all kinds and sample essays by undergraduates are posted on the website. Critical and scholarly terms are italicised and clearly explained both in the text and in a complete glossary. The volume also includes suggestions for further reading. The first edition, widely praised by teachers and students, showed how the pleasures of poetry are heightened by rigorous understanding and made that understanding readily
