**500 AD to 1400 AD**

Following the collapse of the Roman Empire in 476 AD, Western Europe became largely decentralized, except for the centralizing power of the Catholic Church. Also after the collapse of the Roman empire, Europe saw a period of artistic backwardness, as the highly refined methods of art from the Classical period were forgotten.

Characteristics of Medieval art include:

- Focus on religious (Christian) themes
- Disproportionate and little perspective
- Two-Dimensional and flat
- A Hieratic Scale

*Unfixable Forms* Katherine Schaap Williams, 2021-06-15 *Unfixable Forms* explores how theatrical form remakes and is in turn remade by early modern disability Figures described as deformed lame crippled ugly sick and monstrous crowd the stage in English drama of the sixteenth and seventeenth centuries In each case such a description distills cultural expectations about how a body should look and what a body should do yet crucially demands the actor's embodied performance In the early modern theater concepts of disability collide with the deforming vulnerable body of the actor Reading dramatic texts alongside a diverse array of sources ranging from physic manuals to philosophical essays to monster pamphlets Katherine Schaap Williams excavates an archive of formal innovation to argue that disability is at the heart of the early modern theater's exploration of what it means to put the body of an actor on the stage Offering new interpretations of canonical works by William Shakespeare Ben Jonson Thomas Dekker Thomas Middleton and William Rowley and close readings of little known plays such as *The Fair Maid of the Exchange* and *A Larum For London* Williams demonstrates how disability cuts across foundational distinctions between nature and art form and matter and being and seeming Situated at the intersections of early modern drama disability studies and performance theory *Unfixable Forms* locates disability on the early modern stage as both a product of cultural constraints and a spark for performance's unsettling demands and electrifying eventfulness

harmonies of poetry and music but also in architecture sculpture painting bronze work wood carving and embroidery This book concerns itself chiefly with church architecture but necessarily also discusses the place of the fine arts in the construction and use of spaces consecrated to the worship of the One True God Father Son and Holy Spirit where God's people are gathered to receive His gifts of grace and mercy through His Holy Word and the Blessed Sacrament of the Altar

**Routledge Companion to Sixteenth Century Philosophy** Henrik Lagerlund, Benjamin Hill, 2017-01-06 Sixteenth century philosophy was a unique synthesis of several philosophical frameworks a blend of old and new including but not limited to Scholasticism Humanism Neo Thomism Aristotelianism and Stoicism Unlike most overviews of this period The Routledge Companion to Sixteenth Century Philosophy does not simplify this colorful era by applying some traditional dichotomies such as the misleading line once drawn between scholasticism and humanism Instead the Companion closely covers an astonishingly diverse set of topics philosophical methodologies of the time the importance of the discovery of the new world the rise of classical scholarship trends in logic and logical theory Nominalism Averroism the Jesuits the Reformation Neo stoicism the soul's immortality skepticism the philosophies of language and science and politics cosmology the nature of the understanding causality ethics freedom of the will natural law the emergence of the individual in society the nature of wisdom and the love of god Throughout the Companion seeks not to compartmentalize these philosophical matters but instead to show that close attention paid to their continuity may help reveal both the diversity and the profound coherence of the philosophies that emerged in the sixteenth century The Companion's 27 chapters are published here for the first time and written by an international team of scholars and accessible for both students and researchers
