On the Grid Luke Smith, 2025-02-13 The air is thick with sweat engine fumes and the smell of heated tyre rubber as the sky turns orange the sun over the Bahraini desert beginning to set Then out go the lights on the grid The wheels spin the engines roar loud the crowd even louder and the cars speed away But what happens on the track is only a tiny part of the story Whether you re a seasoned fan who hasn't missed a grand prix in decades or a newcomer to F1 I want to show you why this is a sport a way of life even like nothing else on the planet Formula 1 might only have twenty drivers in its most elite competition but each is supported by a world class team of mechanics engineers strategists party planners and much more In On the Grid journalist Luke Smith takes us behind the scenes of the past present and future of the sport telling its story through the eyes of the people who create it including the all important fans We see thrilling drama cutting edge technology the stress and the glamour Smith takes us to the starting grid full of engine fumes and sweat to yacht parties in Monaco and to the pit lane for the critical mid race decisions We see how a fifty pence screw in the wrong place could cause a 15m car to break down how F1 has influenced not just the cars we drive but life saving medical equipment and even croissants how you create a Grand Prix track from scratch On the Grid shows us what it's like to work in a high pressure and inherently dangerous sport showcases the personalities that give it such drama and intrigue examines how the sport is addressing its critics around inclusivity and environmental impact For both long time fans and newcomers what results is the definitive access all areas account of what makes F1 stand alone in world sport Formula One Uncovered D.
