Hearings, Reports and Prints of the House Committee on Armed Services United States. Congress. House. Committee on Armed Services, 1972 **Social Policy and Public Policy** Lee Rainwater, This classic volume was originally designed as an introduction to social science perspectives on a broad range of social issues in American society specifically the complex social problems of the 1960s Because the volume is structured as a survey it is neither exhaustive or definitive It does provide a wide range of information about these problems as well as the many different policy initiatives that were developed to cope with them Readers can learn a great deal about the common themes predilections and quandaries that characterized United States responses to the complex problems of the 1960s and the patterns of inequality and injustice prevalent at that time The essays were selected to cover the range of substantive problematic issues of the period the social science perspectives that were brought to bear on them and the range of social science methodologies used Finally the selections emphasize the contributions that can be made to understanding social problems by intensive and rigorous social science research Journalists and popular writers use a common sense approach to their study of social problems and the

results are often imaginative and incisive The tools of social scientists produce information and analyses that contribute far more to our understanding than even the most insightful journalist can achieve The selections in this volume highlight the deeper and more fundamental understanding of social issues that can come from rigorous analysis of government statistics and from special sample surveys from in depth ethnographic studies Lee Rainwater is professor emeritus of sociology at Harvard University He was one of the original founders of Transaction Publishers He has written books and articles in many professional journals
