The Construction of Metaphoric Text and Talk Meizhen Liao, 2024-08-09 The Construction of Metaphoric Text and Talk A Discourse Analytic Approach argues that in view of their omnipresence in human thinking and action metaphors play a very important role in discourse construction and organization and this role can be textural and textual In order to explore the textual role of metaphors Meizhen Liao proposes that metaphors in discourse be treated as a complex adaptive system CAS which is further composed of two sub systems a micro one consisted of the tenor and the vehicle and a macro one made up of different metaphors The dynamic interaction within the micro system between the tenor and the vehicle in terms of mapping as well as among the macro system of all the metaphors in the text or talk via competition cooperation or complementation contributes to the construction and organization of discourse as an adaptive process in pursuit for the goal or goals of the discourse In the process of the interaction emergent textual patterns develop and an adequate analysis of the patterns at both micro and macro as well as deep and surface levels of discourse will shed light on the true nature and pattern of human thinking and action The author concludes that as metaphor has become entrenched in our conceptual system the study of metaphor as a complex adaptive system in discourse be conducted in its own right

Translation in Transition Isabel Lacruz, 2023-07-26

Extraordinary advances in machine translation over the last three quarters of a century have profoundly affected many aspects of the translation profession. The widespread integration of adaptive artificially intelligent technologies has radically changed the way many translators think and work. In turn, groundbreaking empirical research has yielded new perspectives on the cognitive basis of the human translation process. Translation is in the throes of radical transition on both professional and academic levels. The game-changing introduction of neural machine translation engines almost a decade ago accelerated these transitions. This volume takes stock of the depth and breadth of resulting developments, highlighting the emerging rivalry of human and machine intelligence. The gathering and analysis of big data is a common thread that has given access to new insights in widely divergent areas, from literary translation to movie subtitling to consecutive interpreting to development of flexible and powerful new cognitive models of translation.

The Reception and Rendition of Freud in China
Tao Jiang, Philip J. Ivanhoe, 2013-05-07 Although Freud makes only occasional brief references to China and Chinese culture in his works, for almost a hundred years many leading Chinese intellectuals have studied and appropriated various Freudian theories. However, whilst some features of Freud's views have been warmly embraced from the start and appreciated for their various explanatory and therapeutic values, other aspects have been vigorously criticized as implausible or inapplicable to the Chinese context. This book explores the history, reception and use of Freud and his theories in China and makes an original and substantial contribution to our understanding of the Chinese people and their culture, as well as to our appreciation of western attempts to understand the people and culture of China. The essays are organised around three key areas of research. First, it examines the historical background concerning the China-Freud connection in the 20th century, before going on to use reconstructed Freudian theories in order to provide a modernist critique of Chinese culture. Finally, the book deploys traditional Chinese thought in order to challenge various aspects of the Freudian project. Both Freudianism's universal appeal and its cultural particularity are in full display throughout the book. At the same time, the allure of Chinese cultural and literary expressions, both in terms of their commonality with other cultures and their distinctive characteristics, are also scrutinized. This collection of essays will be welcomed by those interested in early modern and contemporary China, as well as the work and influence of Freud. It will also be of great interest to students and scholars of psychology, psychoanalysis, literature, philosophy, religion, and cultural studies more generally.

In the Name of Justice Weifang He, 2012-11-05 Of all the issues presented by China's ongoing economic and sociopolitical transformation none may ultimately prove as consequential as the development of the Chinese legal system Even as public demand for the rule of law grows the Chinese Communist Party still interferes in legal affairs and continues in its harsh treatment of human rights lawyers and activists Both the frequent occurrences of social unrest in recent years and the growing tension between China's various interest groups underline the urgency of developing a sound and sustainable legal system As one of China's most influential law professors He Weifang has been at the forefront of the country's treacherous path toward justice and judicial independence for over a decade Among his many remarkable endeavors was a successful petition in 2003 that abolished China's controversial regulations permitting the internment and deportation of urban vagrants bringing to an end two decades of legal discrimination against migrant workers His bold remarks at the famous New Western Hills Symposium in 2006 including his assertion that China's party state structure violates the PRC Constitution are considered a watershed moment in the century long movement for a constitutional China With *In the Name of Justice* He presents his critical assessment of the state of Chinese legal reform In addition to a selection of his academic writings this unique book also includes many of He Weifang's public speeches media interviews and open letters providing additional insight into his dual roles as thinker and practitioner in the Chinese legal world Among the topics covered are judicial independence judicial review legal education capital punishment and the legal protection of free speech and human rights The volume also offers a historical review of the evolution of Chinese traditional legal thought enhanced by cross country comparisons A proponent of reform rather than revolution He believes only true constitutionalism can guarantee social justice and enduring stability for China He Weifang has argued for two decades that rule of law however inconvenient at times to some of those who govern must be embraced because it is ultimately the most reliable protector of the interests of the country of the average citizen and in fact even of those who govern from the Foreword by John L Thornton chairman Brookings Institution Board of Trustees and Professor and Director of Global Leadership at Tsinghua University What struck me and shocked me as a foreign visitor was not only that the entire discussion was explicitly critical of the Chinese Communist Party for its resistance to any meaningful judicial reform but also that the atmosphere was calm reasonable and marked by a sense of humor and sophistication in the expression of ideas from the Introduction by Cheng Li director of research and senior fellow at the John L Thornton China Center at Brookings

Franz Kafka and Chinese Culture Yanbing Zeng, 2022-10-20 This book conducts a comprehensive and in depth analysis of Franz Kafka's relation to China Commencing with an examination of the myriad Chinese cultural influences to which Kafka was exposed it goes on to explore the ways in which they manifest themselves in

canonical stories such as *Description of A Struggle*, *The Great Wall of China* and *An Old Manuscript*. This leads the way to thought provoking comparative studies of Kafka and major Chinese writers and philosophers such as Zhuang Tzu, Pu Songling, Qian Zhongshu and Lu Xun. Highlighting kindred philosophical concepts, shared aesthetic tastes and parallel narrative strategies, these comparisons transcend mere textual analysis to explore the profound cultural, historical and philosophical implications of Kafka's works. Finally, the book turns to an examination of Kafka's impact on modern life in China, including its translation, studies, literature and even its mass culture.

Modernist Poetics in China Tiao Wang, Ronald Schleifer, 2022-09-01. This book examines organizations of consumerist economics which developed at the turn of the twentieth century in the West and at the turn of the twenty first century in China in relation to modernist poetics. Consumerist economics include the artificial person of the corporation, the vertical integration of production and consumption based upon desire as well as necessity. This book assumes that poetics can be understood as a theory in practice of how a world works. Tracing the relation of economics to poetics, the book analyzes the impersonality of indirect discourse in Qian Zhongshu and James Joyce, the impressionist discourses of Mo Yan and Ezra Pound and discursive difficulty in Mo Yan and William Faulkner. Bringing together two notably distinct cultures and traditions, this book allows us to comprehend modernism as a theory in practice of lived experience in cultures organized around consumption.

Discovering Fiction Lianke Yan, 2022-04-04. Over the past twenty years, Chinese novelist Yan Lianke has emerged as one of the most important writers in the world. In *Discovering Fiction*, Yan offers insights into his views on literature and realism, the major works that inspired him and his theories of writing. He juxtaposes discussions of the high realism of Leo Tolstoy and Lu Xun against Franz Kafka's modernism and Gabriel Garcia Marquez's magical realism, charting the relationship between causality, truth and modes of realism. He also discusses his approach to realism, which he terms mythorealism, a way of capturing the world's underlying truth by relying on the allegories, myths, legends and dreamscapes that emerge from daily life. Revealing and instructive, *Discovering Fiction* gives readers an unprecedented look into the mind and art of a literary giant.
