Chambers's Journal of Popular Literature, Science and Arts ,1879 Faith and Fortune in the Creation of Our Modern World Jan Vijg,2024-04-19 This book describes how our modern world came into being as a consequence of a series of accidental events unfolding in Europe from the 5th century onwards The events that led to Europe s success such as a competitive state system the rise of modern science and modern law individualism and the capture of the Americas were coincidental They were unsought unintended and unexpected The book discredits the Eurocentric idea that our advanced civilization is a consequence of cultural values inherent to Europeans such as rational thinking frugality hard work and honesty Modern industrial society which arrived in the span of a century after 50 agricultural centuries is a fluke of history It came as an explosion of technological breakthroughs in the 19th century turning the world European when its technology and economic political and cultural consequences quickly spread all over the planet This book argues that our modern advanced civilization is unique and is unlikely to be found anywhere else in the universe The Market of 100 Fortunes Marie Brennan,2024-02-20 Enthralling fantasy mystery from the world of Legend of the Five Rings as two samurai risk everything to rescue an old friend from the clutches of a shadowy trickster Having vanquished demons and halted invasions of devious creatures from the Spirit Realms Asako Sekken and Agasha no Isao Ryotora are finally going to be married But when a note from their old ally Sayashi arrives unexpectedly the samurai find themselves dragged into another supernatural mystery Their investigation leads them to Crane lands and an ancient market ruled by a mysterious being Now Sekken and Ryotora must use all their wit and charm to save Sayashi from a hundred year bargain before they find themselves embroiled in a conflict with a forgotten deity of unimaginable power **Plays: The soldier's fortune (1735).
