Found Lives A Collection Of Found Photographs:

Now Is Then Marvin Heiferman, Batchen Geoffrey, N.M. West, 2008 Deceptive in their ease of creation diminutive size and sheer abundance snapshots are often thought of as the most innocent type of photography But snapshots are complex and willful pictures premeditated fussed over and often predetermined The postures we adopt the gestures we pantomime the exaggerated facial expressions we compose and try to hold for a split second are all meant to express the emotional weight of a certain moment In a time when digital cameras make photography all too easy it is fascinating to look back on a day when image making was more deliberate *Now is Then* features images from the 1920s through the 1960s the golden age of snapshot photography The photos quirky elegant heartbreaking and heart warming both celebrate and question the conventions of snapshot photography Texts by well known visual culture critics offer fresh perspectives on the snapshots and their power over us Unlike previous explorations of vernacular photography *Now Is Then* takes a step forward to look at the broader cultural impact of snapshots why we make them how we use them why they become relics and most importantly what they reveal about us *A Passion to Preserve* Will Fellows, 2005-08-26 From large cities to rural communities gay men have long been impassioned pioneers as keepers of culture rescuing and restoring decrepit buildings revitalizing blighted neighborhoods saving artifacts and documents of historical significance *A Passion to Preserve* explores this authentic and complex dimension of gay men's lives by profiling early and contemporary preservationists from throughout the United States highlighting contributions to the larger culture that gays are exceptionally inclined to make *The Routledge Companion to Photography Theory* Mark Durden, Jane Tormey, 2019-11-07 With newly commissioned essays by some of the leading writers on photography today this companion tackles some of the most pressing questions about photography theory its direction relevance and purpose This book shows how digital technologies and global dissemination have radically advanced the pluralism of photographic meaning and fundamentally transformed photography theory Having assimilated the histories of semiotic analysis and post structural theory critiques of representation continue to move away from the notion of original and copy and towards materiality process and the interdisciplinary The implications of what it means to see an image is now understood to encompass not only the optical but the conceptual ethical and haptic experience of encountering an image The fractal is now used to theorize the new condition of photography as an algorithmic medium and leads us to reposition our relationship to photographs and lend nuances to what essentially underlies any photography theory that is the relationship of the image to the real world and how we conceive what that means Diverse in its scope and themes *The Routledge Companion to Photography Theory* is an indispensable collection of essays and interviews for students researchers and teachers The volume also features extensive images including beautiful colour plates of key photographs

Photography and Collaboration Daniel Palmer, 2020-09-14 *Photography and Collaboration* offers a fresh perspective on existing debates in art photography and on the act of photography in general Unlike conventional accounts that celebrate

individual photographers and their personal visions this book investigates the idea that authorship in photography is often more complex and multiple than we imagine involving not only various forms of partnership between photographers but also an astonishing array of relationships with photographed subjects and viewers Thematic chapters explore the increasing prevalence of collaborative approaches to photography among a broad range of international artists from conceptual practices in the 1960s to the most recent digital manifestations Positioning contemporary work in a broader historical and theoretical context the book reveals that collaboration is an overlooked but essential dimension of the medium s development and potential

Guide to Photographic Collections at the Smithsonian Institution: National Museum of American History Smithsonian Institution,1989

Found Sculpture and Photography from Surrealism to Contemporary Art Julia Kelly,2017-07-05 Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa and Dal Found Sculpture and Photography from Surrealism to Contemporary Art offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book s central themes is the interplay of presence and absence in sculpture as it is highlighted disrupted or multiplied through photography s indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of such concerns for the artwork s materiality and temporality in performance and conceptual practices from the 1960s through the present Found Sculpture and Photography sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life

TV Snapshots Lynn Spigel,2022-04-08 In TV Snapshots Lynn Spigel explores snapshots of people posing in front of their television sets in the 1950s through the early 1970s Like today s selfies TV snapshots were a popular photographic practice through which people visualized their lives in an increasingly mediated culture Drawing on her collection of over 5 000 TV snapshots Spigel shows that people did not just watch TV women used the TV set as a backdrop for fashion and glamour poses people dressed in drag in front of the screen and in pinup poses people even turned the TV setting into a space for erotic display While the television industry promoted on screen images of white nuclear families in suburban homes the snapshots depict a broad range of people across racial ethnic and class backgrounds that do not always conform to the reigning middle class nuclear family ideal Showing how the television set became a central presence in the home that exceeded its mass entertainment function Spigel highlights how TV snapshots complicate understandings of the significance of television in everyday life

New Life for Archaeological Collections Rebecca Allen,Ben Ford,2019-05-01 New Life for Archaeological Collections explores solutions to what archaeologists are calling the curation crisis that is too much stuff with too little research analysis and public interpretation

This volume demonstrates how archaeologists are taking both large and small steps toward not only solving the dilemma of storage but recognizing the value of these collections through inventorying and cataloging curation rehousing artifact conservation volunteer and student efforts and public exhibits Essays in this volume highlight new questions and innovative uses for existing archaeological collections Rebecca Allen and Ben Ford advance ways to make the evaluation and documentation of these collections more accessible to those inside and outside of the scholarly discipline of archaeology Contributors to *New Life for Archaeological Collections* introduce readers to their research while opening new perspectives for scientists and students alike to explore the world of archaeology These essays illuminate new connections between cultural studies and the general availability of archaeological research and information Drawing from the experience of university professors government agency professionals and cultural resource managers this volume represents a unique commentary on education research and the archaeological community

Proceedings, ... Annual Session of the North Dakota Education Association North Dakota Education Association, 1911 ***Tracing Your House History*** Gill

Blanchard, 2013-04-19 With its practical slant and focus on demystifying unfamiliar property documents this is the perfect introduction to tracing a house history *Family Tree Magazine* Anyone who wants to find out about the history of their house of their home needs to read this compact practical handbook Whether you live in a manor house or on a planned estate in a laborer's cottage a tied house a Victorian terrace a twentieth century council house or a converted warehouse this is the book for you In a series of concise information filled chapters Gill Blanchard shows you how to trace the history of your house or flat how to gain an insight into the lives of the people who lived in it before you and how to fit it into the wider history of your neighborhood A wealth of historical evidence is available in libraries archives and record offices in books and online and this is the ideal introduction to it Gill Blanchard explores these resources in depth explains their significance and directs the researcher to the most relevant and revealing aspects of them She makes the research process understandable accessible and fun and in the process she demystifies the sometimes obscure language and layout of the documents that researchers will come up against This book is more than a guide to researching the history of your house or a house of interest It is a font of interest if you are seeking to research and understand the social and domestic lives of people and their communities from early times Federation of Family History Societies

Healing with Art and Soul Kathy Luethje, 2008-12-18 This fascinating collection of essays contains a variety of perspectives about the use of expressive arts for facilitating physical and emotional healing Each author within brings a fresh approach and unique experiences to their writing Within these pages you will find many ideas for the use of the arts and can learn how to engage the inner layers of the self that allow natural healing processes of the body and soul to flourish When we fully engage an art modality we find ourselves in a place in our consciousness that could be called healingspace where we feel ourselves whole and re member ourselves as well From psychic trauma to physical illness dis ease of many kinds may be addressed through the various techniques discussed here

The tools offered by some authors are population specific and age appropriate while several authors have given us the philosophical underpinnings for it all While the authors within represent the grassroots voices of this new and rapidly expanding field several of them have developed their own methods for using the arts and have thriving practices Our approach is wholistic Music visual arts movement dance and poetry are discussed as separate modalities and in combination with one another in a process or flow The reader will engage in our experiences with these modalities as they have been lived The complementary CD that accompanies this book will allow the listener to have a full sound experience of toning If a rationale is needed for establishing arts programs in medical centers or other health facilities it can be found here The book offers tools for self development and for group facilitation Those wanting to expand their healing practice through the use of the arts will find the book to be a faithful guide Anyone wishing for a fuller understanding of how the arts may work to facilitate healing will find much food for thought within these pages *Tompkins County New York Municipal Historians of Tompkins County, Tompkins County Historian, 2009-09-01* Decades of memories culled from attics albums and organizations alike are preserved in this charming collection of photographs chronicling the everyday lives of Tompkins County residents This book showcases images of activity such as farmers hard at work and people dancing into the early hours of the morning as well as the more subdued images of universal human connection such as moments of sorrow contemplation and reflection The stories of those from the past unfold as they bring to life a history long forgotten and a sense of continuity and familiarity uniting these disparate worlds **Transactions** New York State Agricultural Society, 1863 *Image-based Research* Jon Prosser, 2005-08-12 Just what is a picture worth Qualitative research is dominated by language However researchers have recently shown a growing interest in adopting an image based approach This is the first volume dedicated to exploring this approach and will prove an invaluable sourcebook for researchers in the field The book covers a broad scope including theory and the research process and provides practical examples of how image based research is applied in the field It discusses use of images in child abuse investigation exploring children's drawings in health education cartoons the media and teachers

The Photographic News: A Weekly Record of the Progress of Photography. Ed. by William Crookes, and by G. Wharton Simpson William Crookes, 1865 **Gems of English art of this century: 24 pictures from national collections, with texts by F.T. Palgrave** Francis Turner Palgrave, 1869 **Appearances Matter** Tim Allender, Inés Dussel, Ian Grosvenor, Karin Priem, 2021-09-07 The visual turn recovers new pasts With education as its theme this book seeks to present a body of reflections that questions a certain historicism and renovates historiographical debate about how to conceptualize and use images and artifacts in educational history in the process presenting new themes and methods for researchers Images are interrogated as part of regimes of the visible of a history of visual technologies and visual practices Considering the socio material quality of the image the analysis moves away from the use of images as mere illustrations of written arguments and takes seriously the question of the life and death of artifacts that is their particular historicity

Questioning the visual and material evidence in this way means considering how when and in which regime of the visible it has come to be considered as a source and what this means for the questions contemporary researchers might ask

Jacopo Carucci Da Pontormo, His Life and Work Frederick Mortimer Clapp, 1916 **American Jewish Loss after the Holocaust** Laura Levitt, 2007-11-01 Many of us belong to communities that have been scarred by terrible calamities And many of us come from families that have suffered grievous losses How we reflect on these legacies of loss and the ways they inform each other are the questions Laura Levitt takes up in this provocative and passionate book An American Jew whose family was not directly affected by the Holocaust Levitt grapples with the challenges of contending with ordinary Jewish loss She suggests that although the memory of the Holocaust may seem to overshadow all other kinds of loss for American Jews it can also open up possibilities for engaging these more personal and everyday legacies Weaving in discussions of her own family stories and writing in a manner that is both deeply personal and erudite Levitt shows what happens when public and private losses are seen next to each other and what happens when difficult works of art or commemoration such as museum exhibits or films are seen alongside ordinary family stories about more intimate losses In so doing she illuminates how through these ordinary stories we may create an alternative model for confronting Holocaust memory in Jewish culture

National Geographic Image Collection, 2009 For the first time ever readers will plumb the fascinating depths of the immense National Geographic Image Collection from the earliest photographs collected in the late 19th century to the cutting edge work of today

Unveiling the Energy of Verbal Artistry: An Mental Sojourn through **Found Lives A Collection Of Found Photographs**

In a world inundated with screens and the cacophony of immediate communication, the profound power and psychological resonance of verbal artistry often fade in to obscurity, eclipsed by the constant onslaught of noise and distractions. However, situated within the lyrical pages of **Found Lives A Collection Of Found Photographs**, a interesting function of literary beauty that impulses with raw thoughts, lies an memorable journey waiting to be embarked upon. Written by a virtuoso wordsmith, that magical opus courses readers on an emotional odyssey, gently revealing the latent potential and profound influence stuck within the complicated web of language. Within the heart-wrenching expanse with this evocative evaluation, we can embark upon an introspective exploration of the book is main subjects, dissect its interesting publishing model, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
