Abstract

Cross-border cooperations have been usually approached by developing trade agreements between international regions to upgrade their socioeconomic conditions and promote international tourism flows in territories. However, little attention has been paid to the role that tourist companies play in underprivileged territories highly dependent on tourism. Through the theory of social exchange, theoretical implications can be drawn from those territories and compared with developed regions to understand what role tourism flow plays in the reciprocal attitude between tourist companies and visitors. Political implications force tourist authorities to involve companies in promoting their regional tourism resources through participatory tourism programmes. For this, the opinion of companies is strongly related to the tourism generated by the Parque Natural Tajo Internacional on both sides of the border between Spain and Portugal, who have participated in the research to develop tourism on both sides of the border. To collect the data, 126 interviews were carried out with companies among the 53 Spanish and Portuguese companies that participated in the research between January and June 2022. For data tabulation, version 3.26 of SmartPLS was used. The study concludes that social exchange policies that bring companies and residents closer together favour

Tourism and Development in the Developing World David J. Telfer,Richard Sharpley,2015-12-14 Tourism is widely considered to be an important factor in socio economic development particularly in less developed countries However despite almost universal recognition of tourism s development potential the extent to which economic and social progress is linked to the growth of a country s tourism sector remains the subject of intense debate Tourism and Development in the Developing World offers a thorough overview of the tourism development relationship Focusing specifically on the less developed world and drawing on contemporary case studies this updated second edition questions widely held assumptions on the role of tourism in development and seeks to highlight the challenges faced by destinations seeking to achieve development through tourism The introductory chapter establishes the foundation for the book exploring the meaning and objectives of development reviewing theoretical perspectives on the developmental process and assessing the reasons why less developed countries are attracted to tourism as a development option The concept of sustainable development as the most widely adopted contemporary model of development is then introduced and its links with tourism critically assessed Subsequent chapters explore the key issues associated with tourism and development including the rise of globalization the tourism planning and development process the relationship between tourism and communities within which it is developed the management implications of trends in the demand for and uptake of tourism and an analysis of the consequences of tourism development for destination environments economies and societies A new chapter considers the challenges of climate change sustainability of resource supply oil water and food global economic instability political instability and changing demographics Finally the issues raised throughout the book are drawn together in a concluding chapter that assesses the tourism and development dilemma Combining an overview of essential concepts theories and knowledge with an analysis of contemporary issues and debates in tourism and development this new edition will be an invaluable resource for those investigating tourism issues in developing countries The book will be of interest to students of tourism development geography and area studies international relations and politics and sociology

Tourism in the Green Economy Maharaj

Vijay Reddy, Keith Wilkes, 2015-06-05 The concept of the green economy has now entered mainstream policy debates and been endorsed by a range of United Nations and other organizations The Rio 20 UN conference specifically drew attention to the green economy approach in the context of sustainable development to move away from business as usual practices act to end poverty address environmental destruction and build a bridge to the sustainable future It is increasingly recognized that the tourism sector can make a major contribution to the green economy through more sustainable practices climate change mitigation and ecotourism The role of tourism sector will continue to be crucial in the post 2015 sustainable development agenda too However there are ambiguities about how tourism and allied industries can maximize their contribution to human well being and ensure environmentally sustainability embracing issues of political economy geography and business ethics In this context this book provides consensus about what the green economy entails what role tourism can play in a green economy early responses from many countries on going and emerging research initiatives that will enable tourism s transition to a green economy The chapters address three key themes understanding the Green Economy concept and the role of tourism responses and initiatives in greening tourism and emerging techniques and research implications A wide range of case studies from around the world and in different contexts is included to demonstrate the extent of the challenge and range of opportunities for the tourism industry

Environment and Tourism Andrew Holden, 2016-04-25 The global demand for tourism continues to increase as economic growth creates opportunities for its consumption as a lifestyle option across cultures The spatial reach of recreational tourism into remoter environments reflects a desire to reconnect to nature that is partially created by the global trend toward urbanisation At the same time anthropogenic created environmental problems have led us to re evaluate our relationship to nature and the values that are held by the environment This third edition of Environment and Tourism incorporates additional material on environmental philosophies and ontologies of nature and how these influence our understanding of tourism s relationship with the natural environment In an epoch representing a critical juncture for the future well being of the planet based on our relationship to nature the text has been updated to reflect the growth in significance of the interaction between tourism and the natural environment as a part of this discourse It communicates a range of key conceptual debates on the ethics and economics of the consuming nature for tourism and relates these to real world examples whilst evaluating environmental planning and management responses The book seeks to highlight the relevance of the significance of tourism for nature within the framework of society as a system of inter connected places across space and time exploring the relationship of the environments of where tourists come from with the ones that they travel to The updated features include new chapters on philosophies and constructs of the environment environmental ethics and tourist consumption an extensive range of international case studies used to illustrate the theoretical ideas presented boxes offering bite sized insights and think points designed to encourage students to further engage with the topics discussed Environment and Tourism emphasises a holistic view of the tourism system and how it

interacts with nature illustrating the positive and negative effects of this relationship It emphasises how ontologies of the environment influence the planning and management of tourism for natural resource conservation and human development It is an invaluable tool for anyone studying Human Geography Tourism and Environmental Studies as well as for policy makers and consultants working in the field of tourism development
