Hmcs Swansea The Life And Times Of A Frigate:

HMCS Swansea Fraser McKee, 1994 HMCS Swansea is the story of a ship just one of Canada's several hundred warships. It is also the story of the men who served in her and of other ships who operated with her in wartime in EG 9 and in peacetime in her various training roles. It is a representative tale that could have been told and has been of any one of a hundred similar ships of the Royal Canadian Navy. HMCS Swansea is typical yet atypical. Typical in that she participated in the Battle of the Atlantic in the same way as her sister frigates, atypical in that she was involved in the destruction of four U-boats more than any other RCN ship. And it was in this role of hunter-killer that she was absolutely the best. Those who served in Swansea remember her with affection she generated and for some still generates much joy, remembrance and even love. All think of her as their ship. Canadian Warbird Survivors Harold A. Skaarup, 2000. The purpose of this handbook is to provide aviation enthusiasts with a handbook on where to find the surviving retired military aircraft preserved in Canada. The majority of the Canadian Warbird and War Prize Survivors are on display within a significant number of aviation museums. Many others are displayed as gate guards on or near a number of Canadian and Allied Armed Forces Bases and installations. There are also a few in the hands of private owners and collectors that have been restored to flying status. These include a number of foreign warbird survivors that were brought back to Canada as War Prizes. The museum staffs and volunteer organizations such as the Canadian Aviation Preservation Association (CAPA) have done tremendous work in preserving military and civilian aircraft that have been a major part of Canada's aviation heritage. A few of these aircraft are illustrated in this book along with a short description of the aircraft flown by Canadian servicemen and women. The aircraft are listed alphabetically along with a city or museum location, the manufacturer, aircraft serial number and call sign where known. Canadian Warbird and War Prize Survivors is part of a series on aircraft used by the Canadian Forces throughout its history.

Warriors and Wizards Martin J. Bollinger, 2010-10-15. In August 1943 the Luftwaffe began using radio-controlled anti-ship glide bombs and within weeks they had sunk one battleship, crippled another, wrecked two cruisers and destroyed numerous merchant ships. Yet a year later the Germans abandoned their use, defeated by scientists who developed electronic systems to jam the radio links that guided the bombs. Drawing on a wealth of new sources, Martin Bollinger examines what happened from both a historical and technological perspective and lays out a mission by mission analysis of effectiveness. Based on interviews with participants, intelligence documents and archival records in four

countries his book chronicles the yearlong battle between the Allied seamen the warriors and the scientists the wizards for a story of courage technical achievement and sacrifice **Commanding Canadians** Michael Whitby, 2011-11-01 Commander A F C Layard RN wrote almost daily in his diary in bold neat script from the time he entered the Royal Navy as a cadet in 1913 until his retirement in 1947 The pivotal 1943-45 years of this edited volume offer an extraordinarily full and honest chronicle revealing Layard's preoccupations both with the daily details and with the strain and responsibility of wartime command at sea Enhanced by Michael Whitby's explanatory essays the diary sheds light on the inshore anti submarine campaign in British waters discusses pivotal events such as the invasions of North Africa and Normandy and convoys to Russia describes encounters with important personalities and records the final surrender of German U boats It is a highly personal piece of history that greatly enhances our understanding of the Canadian naval experience and the Atlantic war as a whole A consummately well researched work **Commanding Canadians** will appeal to both naval scholars as well as to general readers interested in military history **The Canadian Naval Chronicle, 1939-1945** Robert A. Darlington, Fraser McKee, 1998 In World War II the Canadian Navy embarked on a five year anti submarine offensive with a tiny fleet of six destroyers and a navy largely untrained in submarine warfare This chronicle of ship successes and losses charts the increase in fighting capability of the Canadian naval forces and their growing success against enemy submarines and surface warships From the dreadful loss of sixteen ships out of a single convoy in 1941 to the painstaking teamwork of hunting down and destroying an asdic contact a few years later the authors have managed to capture the drama of these events in considerable detail The information provided in each account represents comprehensive research into the incident from available records and from personal recollections and interviews collected by the authors Each includes the ships and crews involved on both sides their movements just prior to the event the action itself the casualty lists and the medals awarded as a result of the action This book also contains for the first time a complete record of all the Canadian owned Merchant ships lost as well as a table of RCAF Squadron successes against enemy U boats **BC Studies** , 1994 **The Mariner's Mirror Bibliography for ...** , 1997 *Bibliographie de la Vie Militaire Au Canada, 1867-1995* O. A. Cooke, Canada. Department of National Defence. Directorate of History and Heritage, 1997 Canadian military history and military matters have not been well represented in general in retrospective bibliographies of Canadian or in international military bibliographies What has been attempted in this document is a bibliography of published primary sources and secondary works on Canadian military topics excluding poetry and fiction covering the period from Confederation to the present Entries in the bibliography represent printed monographs books and pamphlets and serial titles The prime criteria of inclusion were that the work be chiefly or uniquely both Canadian and military in its contents Many in house publications of the training pamphlet or regulations type have been included but only insofar as they tell us something of the armed forces themselves rather than details of tactical doctrine or of pieces of equipment Works by or about Canadians serving with the armed forces of other countries have been

creating the country we live in today Salty Dips Volume 11 Naval Association of Canada - Ottawa Branch, 2021-11-09

Among sailors to spin a dip means to tell a story The Naval Association of Canada Ottawa Branch's Salty Dips series carries on this tradition by collecting entertaining and informative stories about the Canadian Navy as it is remembered by those who have served in its ranks As they began conceiving this eleventh volume of the Salty Dips series the authors agreed that the Navy from which they retired was different from the Navy that they joined Thus this volume charts the social changes in the Royal Canadian Navy and Canadian Navy since the 1950s in doing so Some things pass Some things change Some just stay the same brings the past a bit closer to the present by reminding us of the journey that brought us here This compendium of stories musings recollections and observations gets to the heart of what it means to serve one's country and spend one's life at sea These Old Salts tell some incredible tales admit to humorous pranks and catalogue important historical moments from a personal perspective including reminiscences of the first female officers to serve at sea in the Canadian Navy This collection of voices affords us a sense of the textures and nuances of Navy life covering everything from shaving mishaps to life changing calls to duty Whether you are a seasoned mariner or taking your first dip into naval history this collection promises to entertain educate and inspire Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004

In Peril on the Sea Donald E. Graves, Canadian Naval Memorial Trust, 2003 This is the story of a forgotten fighting service During the Second World War the Royal Canadian Navy expanded from a tiny force of ten warships in 1939 to the third largest Allied navy by 1945 The RCN's primary wartime role was convoy escort in the North Atlantic and Canadian warships served in this grim theatre where the weather was an enemy almost as dangerous as the U boats for nearly six years In Peril on the Sea is the story of the Canadian navy and its important contribution to Allied victory in the Battle of the Atlantic the most crucial battle of the Second World War Much of this fascinating saga is presented through the personal accounts of 65 eyewitnesses British Canadian German sailors submariners and merchant seamen who participated in the Second World War's longest operation In Peril on the Sea contains nearly 200 photographs drawings maps graphics and ship profiles which bring to life with compelling immediacy the grim but courageous struggle to preserve the sea lanes of freedom between 1939 and 1945 Commissioned by the Canadian Naval Memorial Trust and written by one of Canada's foremost historians In Peril on the Sea will appeal to general and specialist readers alike Book jacket

The Crowsnest, 1963

Anti-Submarine Warfare David Owen, 2007-11-15 The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also

ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a counter measure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster

The U-boat Century Jak P. Mallmann Showell, 2006 The U boat was one of the most potent weapons of the twentieth century and in this book one of the world's leading U boat historians explains how the German submarine was developed and designed and then deployed to wreak havoc in European waters and further afield in the Atlantic and Far East This is not a dry technical study but a work that looks behind the scenes at the men who built and fought in them While the boats themselves are described Mallmann Showell paints a broader picture of life in the U boat arm Weapons systems operational areas bases builders and fleet organization are covered and as well as dealing with the world wars the author covers today's German navy and brings the story up to date with a full description of the third latest generation of U boats The text is augmented by some 400 photographs many never before published The book's publication coincides with the centenary of the launch of Germany's first U boat in August 1906 It is an essential addition to the library of every modern naval historian and enthusiast
