Avenue of Mysteries John Irving,2015-11-03 Thoroughly modern accessibly brainy hilariously eccentric and beautifully human The New York Times Book Review John Irving returns to the themes that established him as one of our most admired and beloved authors in this absorbing novel of fate and memory In Avenue of Mysteries Juan Diego a fourteen year old boy who was born and grew up in Mexico has a thirteen year old sister Her name is Lupe and she thinks she sees what s coming specifically her own future and her brother s Lupe is a mind reader she doesn t know what everyone is thinking but she knows what most people are thinking Regarding what has happened as opposed to what will Lupe is usually right about the past without your telling her she knows all the worst things that have happened to you Lupe doesn t know the future as accurately But consider what a terrible burden it is if you believe you know the future especially your own future or even worse the future of someone you love What might a thirteen year old girl be driven to do if she thought she could change the future As an older man Juan Diego will take a trip to the Philippines but what travels with him are his dreams and memories he is most alive in his childhood and early adolescence in Mexico As we grow older most of all in what we remember and what we dream we live in the past Sometimes we live more vividly in the past than in the present Avenue of Mysteries is the story of what happens to Juan Diego in the Philippines where what happened to him in the past in Mexico collides with his future **Moochi's Mariachis** , Where Do We Go from Here?
