Holiday Symbols Customs 3ed:

Rituals and Practices in World Religions David Bryce Yaden, Yukun Zhao, Kaiping Peng, Andrew B.

Newberg, 2020-02-03 This book codifies describes and contextualizes group rituals and individual practices from world religious traditions At the interface of religious studies psychology and medicine it elucidates the cultural richness of practices and rituals from numerous world religions The book begins by discussing the role that religious rituals and practices may play in the well being of humans and the multi dimensional cultural and psychological complexity of religious rituals and practices It then discusses rituals and practices within a number of religions including Christian Islamic Jewish Buddhist Taoist Sikh Hindu Confucian and other traditions There is a need for a more inclusive collection of religious rituals and practices as some practices are making headlines in contemporary society Mindfulness is one of the fastest growing psychological interventions in healthcare and Yoga is now practiced by tens of millions of people in the U S A These practices have been examined in thousands of academic publications spanning neuroscience psychology medicine sociology and religious studies While Mindfulness and Yoga have recently received widespread scientific and cultural attention many rituals and practices from world religious traditions have remained underexplored in scholarly scientific and clinical contexts This book brings more diverse rituals and practices into this academic discourse while providing a reference guide for clinicians and students of the topic

Holidays, Festivals, and Celebrations of the World Dictionary Helene Henderson, 2005

Contains information about nearly 2 500 holidays festivals holy days feasts and fasts and other observances including popular secular and religious celebrations for more than 100 countries and every state of the United States Provided by publisher

Encyclopedia of New Year's Holidays Worldwide William D. Crump, 2016-03-30 Among the world's myriad cultures and

their associated calendars the idea of a New Year is relative and hardly specifies a universal celebration or even a universal point in time Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods music dancing noisemaking fireworks and drinking This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year beyond its traditional Western associations with Christmas National or regional entries detail the principal traditions and customs of 130 countries while 27 entries discuss major calendar systems in current use or of significant historical interest The remaining entries cover a wide variety of subjects including literary works movies and television specials the customs of specific ethnic groups universal customs such as toasting and drinking football bowl games and parades and the New Year celebrations at the White House and the Vatican

In Nature's Honor Patricia Montley, 2005 In Nature's Honor explores the eight solar

holidays that mark the turning of the Wheel of the Year Each chapter begins with a history of the holiday the ways in which it has been celebrated from ancient to modern times its relationship to other religious and secular celebrations and its cultural and mythological foundations This history is followed by recommendations for specific activities to celebrate the season that

individuals families or small groups can enjoy The chapters conclude with formal rituals suitable for use in larger faith communities These include scripted narration songs dramatic enactments litanies of seasonal blessings readings from poetry and mythology and suggestions for ceremonial food In Nature s Honor reconnects the modern spiritual seeker with the earth centered practices of our ancestors This work explores the seasonal rituals that celebrate the earth and our connection to it which is not just physical but profoundly spiritual FROM THE AUTHOR From the Authorz In writing this book I discovered the most important theme running through the history of rituals related to the earth s seasons is renewal The wheel turns and the old season gives way to the new the old year to the new the old life to the new Each planting of seeds promises new possibilities Each harvest brings sustenance for yet another year Each fallow time regenerates the life of the soil The sun deities retreat and return The grain goddesses are lost and restored The vegetation gods die and rise again The cycle of life goes on and on birth after death after birth Perhaps what all the rituals celebrate is this ongoing ness of life the miraculous natural world that makes it possible and our abiding connection to it For the ancients the interdependence was clear When the people fasted on the eve of a new season s beginning they purified not just their own bodies but the land itself The fires that encouraged the fecundity of the land also made its people fertile For us moderns distanced from the earth by technology the interdependence is not as clear And we are paying the price in polluted air and water in soil erosion in deforestation in global warming How different the condition of the planet might be if we allowed ourselves to be renewed at each turning of the wheel of the year if we took the time periodically to celebrate the beauty and bounty of nature **Choice** ,2004
