Hollywood Goes Shopping:

Hollywood Goes Shopping David Desser, Garth Jowett, 2000 Aggressive product placement and retail tie ins are as much a part of moviemaking today as high concept scripts and computer generated special effects but this phenomenon is hardly recent Since the silent era Hollywood studios have proved remarkably adept at advertising both their own products and a bewildering variety of consumer commodities successfully promoting the idea of consumption itself *Hollywood Goes Shopping* brings together leading film studies scholars to explore the complex and sometimes contradictory relationship between American cinema and consumer culture providing an innovative reading of both film history and the evolution of consumerism in the twentieth century

Hollywood by Hollywood Steven Cohan, 2019 The backstudio picture or the movie about movie making is a staple of Hollywood film production harking back to the silent era and extending to the present day What gives backstudios their coherence as a distinctive genre Steven Cohan argues in *Hollywood by Hollywood* is their fascination with the mystique of Hollywood as a geographic place a self contained industry and a fantasy of fame leisure sexual freedom and modernity Yet by the same token if backstudio pictures have rarely achieved blockbuster box office success what accounts for the film industry's interest in continuing to produce them The backstudio picture has been an enduring genre because aside from offering a director or writer a chance to settle old scores in branding filmmaking with the Hollywood mystique the genre solicits consumers strong investment in the movies Whether inspiring the movie crazy fan girls of the early teens and twenties or the wannabe filmmakers of this century heading to the West Coast after their college graduations backstudios have given emotional weight and cultural heft to filmmaking as the quintessential American success story But more than that a backstudio picture is concerned with shaping perceptions of how the film industry works with masking how its product depends upon an industrial labor force including stardom and with determining how that work's value accrues from the Hollywood brand stamped onto the product Cohan supports his well theorized and well researched claims with nuanced discussions of over fifty backstudios some canonical and well known and others obscure and rarely seen Covering the hundred year timespan of feature length film production *Hollywood by Hollywood* offers an illuminating perspective for considering anew the history of American movies

Videoland Daniel Herbert, 2014-01-24 *Videoland* offers a comprehensive view of the tangible phase of consumer video

when Americans largely accessed movies as material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture s historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history

Hollyworld Aida Hozic, 2018-10-18 Hollywood is currently one of the largest and most profitable sectors of the U S economy In just a few decades it has transformed itself from a dying company town into a merchandising emporium of movies games and licensed characters It is quickly moving even further into cyberspace virtual reality and digital imaging Aida Hozic writes of these enormous changes in the film industry from a novel perspective by tracing shifts in spatial organization of film production from the enclosed worlds of old Hollywood studios through globally dispersed location shooting to digital production and distribution Hozic s fascinating tale of latter day capitalism suggests that the physical reorganization of production across the American economy but in Hollywood in particular alters material and conceptual boundaries between work and leisure public and private reality and fantasy Particular economic regimes and forms of spatial organization have specific moral implications and so the story of Hollywood s cultural production is partly a story of censorship and moral surveillance Hozic s account of industrial change in Hollywood and of its attempts at moral control over the production of fantasy is an illuminating confrontation with the peculiar nature of Hollywood s political authority and of its complex power

Among those menus in the mid 1910s were several that mediated the interests of movie manufacturers distributors exhibitors and the rapidly expanding audience of fans This writing about the movies arguably played a crucial role in the emergence of American popular film culture negotiating among national regional and local interests to shape fans ephemeral experience of moviegoing their repeated encounters with the fantasy worlds of movieland and their attractions to certain stories and stars Moreover many of these weekend pages daily columns and film reviews were written and consumed by women including one teenage girl who compiled a rare surviving set of scrapbooks Based on extensive original research Menus for Movieland substantially revises what moviegoing meant in the transition to what we now think of as Hollywood **Pretty People** Anna Everett,2012-05-14 In the 1990s American civil society got upended and reordered as many social cultural political and economic institutions were changed forever Pretty People examines a wide range of Hollywood icons who reflect how stardom in that decade was transformed as the nation itself was signaling significant changes to familiar ideas about gender race ethnicity age class sexuality and nationality Such actors as Denzel Washington Andy Garcia Halle Berry Angela Bassett Will Smith Jennifer Lopez and Antonio Banderas became bona fide movie stars who carried major films to amazing box office success Five of the decade s top ten films were opened by three women Julia Roberts Jodie Foster and Whoopi Goldberg Chick flick entered the lexicon as Leonardo DiCaprio became the King of the World ushering in the cult of the mega celebrity Tom Hanks and Tom Cruise defined screen masculinity as stark contrasts between the regular guy and the intense guy while the roles of Michael Douglas exemplified the endangered Average White Male A fascinating composite portrait of 1990s Hollywood and its stars this collection marks the changes to stardom and society at century s end [Selling James Bond](#) Tanya Nitins,2011-08-08 The character of James Bond for many people is intrinsically linked in their minds with particular brands Aston Martin Bollinger Omega Smirnoff vodka and so on This direct association between character and brand highlights the intrinsic role of product placement in the film industry and in the James Bond films in particular Selling James Bond Product Placement in the James Bond Films provides a comprehensive overview of the history of product placement in the James Bond series charting the progression of the practice and drawing direct correlations to significant cultural and historical events that impacted upon the number and types of products incorporated into the series While primarily a financial arrangement it is also important that the practice of product placement be examined and understood in relation to these cultural contexts an area of research so far largely ignored by academic study Through extensive content analysis of the official James Bond film series as well as utilising directors commentary and industry reports this book illustrates the strong impact specific cultural and historical events have had on the practice of product placement in the series In doing so it provides an exciting and in depth behind the scenes look at the James Bond film series and its complicated and sometimes contentious history of product placement In the process it charts the gradual emergence of product placement from the more traditional background shot to becoming so embedded in the actual film narrative that they have become simply yet another

method for filmmakers to produce cultural meaning *A Great Big Girl Like Me* Victoria Sturtevant, 2010-10-01 In this study of Marie Dressler MGM's most profitable movie star in the early 1930s Victoria Sturtevant analyzes Dressler's use of her body to challenge Hollywood's standards for leading ladies At five feet seven inches tall and two hundred pounds Dressler was never considered the popular delicate beauty often playing ugly ducklings old maids doting mothers and imperious dowagers However Dressler's body her fearless physicality and her athletic slapstick routines commanded the screen Although an unlikely movie star Dressler represented for Depression era audiences a sign of abundance and generosity in a time of scarcity This premier analysis of her body of work explores how Dressler refocused the generic frame of her films beyond the shallow problems of the rich and beautiful instead dignifying the marginalized the elderly women and the poor Sturtevant interprets the meanings of Dressler's body through different genres venues and historical periods by looking at her vaudeville career her transgressive representation of an unruly yet sexual body in *Emma* and *Christopher Bean* ideas of the body politic in the films *Politics* and *Prosperity* and Dressler as a mythic body in *Min and Bill* and *Tugboat Annie* Film Genre Reader IV Barry Keith Grant, 2012-12-01 From reviews of the third edition *Film Genre Reader III* lives up to the high expectations set by its predecessors providing an accessible and relatively comprehensive look at genre studies The anthology's consideration of the advantages and challenges of genre studies as well as its inclusion of various film genres and methodological approaches presents a pedagogically useful overview Scope Since 1986 *Film Genre Reader* has been the standard reference and classroom text for the study of genre in film with more than 25 000 copies sold Barry Keith Grant has again revised and updated the book to reflect the most recent developments in genre study This fourth edition adds new essays on genre definition and cycles action movies science fiction and heritage films along with a comprehensive and updated bibliography The volume includes more than thirty essays by some of film's most distinguished critics and scholars of popular cinema including Charles Ram rez Berg John G Cawelti Celestino Deleyto David Desser Thomas Elsaesser Steve Neale Thomas Schatz Paul Schrader Vivian Sobchack Janet Staiger Linda Williams and Robin Wood Citizen Spy Michael Kackman, Looking at secret agents on television in the 1950s and 1960s Michael Kackman explores how Americans see themselves in times of political and cultural crisis From parodies such as *The Man from U N C L E* and *Get Smart* to the more complicated situations of *I Spy* and *Mission Impossible* Kackman situates espionage television within the culture of the civil rights and women's movements and the war in Vietnam **The End of Love** Eva Illouz, 2021-09-15 Western culture has endlessly represented the ways in which love miraculously erupts in people's lives the mythical moment in which one knows someone is destined for us the feverish waiting for a phone call or an email the thrill that runs down our spine at the mere thought of him or her Yet a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love where we fall out of love when the one who kept us awake at night now leaves us indifferent or when we hurry away from those who excited us a few months or even a few hours before In *The End of Love* Eva Illouz

documents the multifarious ways in which relationships end. She argues that if modern love was once marked by the freedom to enter sexual and emotional bonds according to one's will and choice, contemporary love has now become characterized by practices of non-choice, the freedom to withdraw from relationships. Illouz dubs this process by which relationships fade, evaporate, dissolve, and break down 'unloving'. While sociology has classically focused on the formation of social bonds, *The End of Love* makes a powerful case for studying why and how social bonds collapse and dissolve. Particularly striking is the role that capitalism plays in practices of non-choice and 'unloving'. The unmaking of social bonds, she argues, is connected to contemporary capitalism, which is characterized by practices of non-commitment and non-choice, practices that enable the quick withdrawal from a transaction and the quick realignment of prices and the breaking of loyalties. 'Unloving' and non-choice have in turn a profound impact on society and economics as they explain why people may be having fewer children, increasingly living alone, and having less sex. *The End of Love* presents a profound and original analysis of the effects of capitalism and consumer culture on personal relationships and of what the dissolution of personal relationships means for capitalism.

Youth and Suicide in American Cinema Alessandra Seggi, 2022-10-27. This book explores the depiction of suicide in American youth films from 1900 to 2019. Anchored in Sociology, this multidisciplinary study investigates the causes and consequences of suicide and uncovers the socio-cultural context for the development of youth film and suicide. While such cinematic portrayals seem to privilege external explanations of suicide versus internal or psychological ones, overall they are neither rich nor sensitive. Most are simplistic, limited, or at the very least unbalanced. At times they are flatly controversial. In light of this overall problematic depiction of suicide, this book offers a proactive approach to empower young audiences: a media literacy strategy to embrace while watching these films.
