Holy Bible Todays Chinese Version Second Edition:

The Chinese Face of Jesus Christ: Roman Malek, 2017-07-05 This volume provides an annotated bibliography of the Western and Chinese literature on Jesus Christ in China. It is a sequel to the interdisciplinary collection on the manifold faces and images of Jesus throughout Chinese history from the Tang dynasty 618-907 to the present time. The present bibliography broadens and deepens the above mentioned subject matter and also points out aspects which have been addressed in the contributions and anthologies of the previous volumes of *The Chinese Face of Jesus Christ* but which have not been treated thoroughly. Another aim of this bibliography is to initiate and enable further research particularly in China. It includes bibliographical data from the beginning of the introduction of Christianity to China until the year 2013, occasionally also until 2014. A list of Key References enables the reader to identify important works on main topics related to Jesus Christ in China. Some examples of book covers and title pages are included in the section of Illustrations. Other volumes of the collection *The Chinese Face of Jesus Christ* are in preparation. Vol 3c will present longer quotations from the sources listed in the present bibliography. Vol 4b will contain a general index with glossary and Vol 5 will deal with the iconography of Jesus Christ in China.

The Oxford Handbook of the Bible in China: Khiok-Khng Yeo, 2021 The *Oxford Handbook of the Bible in China* deftly examines the Bible's translation, expression, interpretation, and reception in China. Forty-eight essays address the translation of the Bible into China's languages and dialects, expression of the Bible in Chinese literary and religious contexts, Chinese biblical interpretations and methods of reading, and the reception of the Bible in the institutions and arts of China. This comprehensive and unique volume presents insightful, succinct, and provocative evidence about and interpretations of encounters between the Bible and China for centuries past, continuing into the present, and likely prospects for the future.

Translating Nephesh in the Psalms into Chinese: Hui Er Yu, 2018-08-31 This interdisciplinary study tackles the controversy of translating *nephesh* by using an intergenerational translation team to deepen our understanding of this term and providing a more valuable translation in Chinese, especially for use in specialist Children's Bibles. Traditionally, *nephesh* is often translated in the Bible as *soul*, but despite the limitations of this popular rendering, it has led Christians in Chinese contexts to falsely understand views regarding the nature of human beings as a trichotomy. Dr Hui Er Yu's study offers different options for translating *nephesh* using the context of where the word appears in Scripture, as well as in reference to linguistic and cultural meanings in Chinese contexts. The findings in this book will help to remove anthropological misunderstandings among many Chinese Christians related to *nephesh* as a result of historic translation decisions. Dr Yu takes a unique approach to translation by using an intergenerational Bible translation team ranging from seven to fifty-one years of age, which not only demonstrates the importance of intergenerational ministry but also presents a way to fulfill the growing need for well-translated Children's Bibles in China for thousands of young believers. This book provides important lessons for the many translation projects working towards Children's Bibles but also for how translation of biblical terms can

Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue
