They learn a lot about themselves in the process *A Dream of Death* Richard E. Ford, 2024-09-18 The Great Flood was the worst catastrophe to ever affect the human race it nearly destroyed all life on Earth It is an event that is universally remembered in religion mythology and cultural lore world wide yet factual records and physical evidence of it seem to be lacking In fact though there are many records but most are written in the universal and timeless languages of mathematics and geometry which are to be found recorded in the stones of many of the most celebrated ancient structures around the world it has preserved the records but it has made them difficult to access and interpret After all they were written by astronomers who saw in the heavens the catastrophe that was about to befall the Earth And they knew that only through mathematics and geometry could they transmit their knowledge of this event to the generations that they hoped and believed would follow them in the ages to come it is no idle curiosity concerning an event that occurred so long ago that it is largely irrelevant to the present the event that caused this world wide catastrophe will return one day with the same devastating results And as before all life on Earth will be at risk with mass die offs and the distinct possibility that there may not be a recovery and all life will come to an end Here then is what they wrote
