## Form Feeling:

On Form ,2008-09-18 What is form Why does form matter In this imaginative and ambitious study Angela Leighton assesses not only the legacy of Victorian aestheticism and its richly resourceful keyword form but also the very nature of the literary She shows how writers for two centuries and more have returned to the idea of form as something which contains the secret of art itself She tracks the development of the word from the Romantics to contemporary poets and offers close readings of among others Tennyson Pater Woolf Yeats Stevens and Plath to show how form has provided the single most important way of accounting for the movements of literary language itself She investigates for instance the old debate of form and content of form as music or sound shape as the ghostly dynamic and dynamics of a text as well as its long association with the aestheticist principle of being for nothing In a wide ranging and inventive argument she suggests that form is the key to the pleasure of the literary text and that that pleasure is part of what literary criticism itself needs to answer and convey

The Connected Discourses of the Buddha ,2005-06-10 This volume offers a complete translation of the Samyutta Nikaya The Connected Discourses of the Buddha the third of the four great collections in the Sutta Pitaka of the Pali Canon The Samyutta Nikaya consists of fifty six chapters each governed by a unifying theme that binds together the Buddha's suttas or discourses The chapters are organized into five major parts The first The Book with Verses is a compilation of suttas composed largely in verse This book ranks as one of the most inspiring compilations in the Buddhist canon showing the Buddha in his full grandeur as the peerless teacher of gods and humans The other four books deal in depth with the philosophical principles and meditative structures of early Buddhism They combine into orderly chapters all the important short discourses of the Buddha on such major topics as dependent origination the five aggregates the six sense bases the seven factors of enlightenment the Noble Eightfold Path and the Four Noble Truths Among the four large Nikayas belonging to the Pali Canon the Samyutta Nikaya serves as the repository for the many shorter suttas of the Buddha where he discloses his radical insights into the nature of reality and his unique path to spiritual emancipation This collection it seems was directed mainly at those disciples who were capable of grasping the deepest dimensions of wisdom and of clarifying them for others and also provided guidance to meditators intent on consummating their efforts with the direct realization of the ultimate truth The present work begins with an insightful general introduction to the Samyutta Nikaya as a whole Each of the five parts is also provided with its own introduction intended to guide the reader through this vast ocean like collection of suttas To further assist the reader the translator has provided an extensive body of notes clarifying various problems concerning both the language and the meaning

*Free Spirit* Sundance Burke,2008-02 Free Spirit speaks as freedom which is our Consciousness the sweet essence of our lives The freedom spoken here is an inner knowing We cannot realize this liberation by catering to our bodies emotions or minds No

this freedom is spiritual an altitude of perception that only arises when we are lighter than our surroundings We can realize this lightness of being if we are willing to abide as Awareness and let go of the ego the one who suffers mind For this enlightenment to happen a quiet mind is all we need Why do anything for this when only our stillness will suffice Be silent be still be free Within this book you will find answered and unanswered questions humor poetic prose experimentation with consciousness and passages that illuminate the sense that we are more than our thoughts emotions senses body and energy Every word is sourced by the power of silent Truth Without contradicting this source the writing inspires our active participation in the realization of Spirit as only our direct experience is of value to this awakening For those of us who desire to be free the author takes us by the hand and walks with us through the entire landscape of the egoic mind until we reach its outer boundary Here we are invited to take a leap of Self faith into simply being who we are right now Free Spirit

Self-Feeling Gerhard Kreuch,2019-11-11 This monograph offers new insights into the connection between self consciousness and emotion It focuses on what fundamental feelings of being tell us about ourselves The results enrich the philosophy of human affectivity and help shed new light on some pressing current problems The author seeks to understand self consciousness as an affective phenomenon namely as self feeling He identifies it as a pre reflective pre propositional bodily feeling that shapes our space of possibilities It is the affective disclosure of individual existence His account overcomes the difficulties of infinite regress and vicious circularity that reflective or higher order accounts of self consciousness struggle with At the same time it helps build a bridge between the basic level of self consciousness and the higher level of more substantial thoughts about oneself The title explores fundamental affectivity Matthew Ratcliffe s theory of existential feelings features of self feeling and appropriateness and inappropriateness in self interpretation It also considers the contributions of the Heidelberg School of self consciousness to current debates The title provides students and researchers with a unique look into such vital philosophical questions as What is self consciousness How do we know ourselves It will also appeal to a wider audience interested in self consciousness and or human affectivity since it does not presuppose knowledge of the jargon

**Ocean of Reasoning** Tsong khapa,2006-04-20 Tsong kha pa 14th century is arguably the most important and influential philosopher in Tibetan history An Ocean of Reasoning is the most extensive and perhaps the deepest extant commentary on Nagarjuna s Mulamadhyamakakarika Fundamental Wisdom of the Middle Way and it can be argued that it is impossible to discuss Nagarjuna s work in an informed way without consulting it It discusses alternative readings of the text and prior commentaries and provides a detailed exegesis constituting a systematic presentation of Madhyamaka Buddhist philosophy Despite its central importance however of Tsong kha pa s three most important texts only An Ocean of Reasoning remains untranslated perhaps because it is both philosophically and linguistically challenging demanding a rare combination of abilities on the part of a translator Jay Garfield and Ngawang Samten bring the requisite skills to this difficult task combining between them expertise in Western and Indian philosophy
