

Goals and Objectives

- The goals and objectives also provide a map of what I need to assess
- Goals provide guidelines and should be flexible to change ,if they are not appropriate. There are two bigger obstacles to formulating goals and objectives 
- The lack of time. Planning needed to formulate  goals and objectives
- People don't know how to formulate

Developing School Leaders in the Pacific Narsamma Lingam, Govinda Ishwar Lingam, 2023-08-31 This book provides detailed insights on the training and development for Pacific Island school leaders It draws extensively on original empirical research that explores school leaders perceptions of how leadership and management training impacted their professional practices and how these practices in turn impacted the dynamics of school operations This book addresses a critical need to understand how to support leadership development for all Pacific schools but especially in schools that are faced with the increasing challenges of learning and teaching conditions In small island developing states in the Pacific region school leaders face a myriad of challenges due to limited human and material resources and a fragile economic base Written by Pacific Islander authors this book provides insights from different countries in the Pacific Islands It shows how contextual challenges can exert enormous pressure on school leaders who are leading and managing schools without any leadership preparation Given the importance of effective leadership practices and its impact on student learning outcomes this book aims to be a source of reference for practitioners and educational authorities who have a vested interest in the provision of quality education in the Pacific region and beyond

Management Principles P. J. Smit, 2007 Book CD To improve on an award winning book poses a major challenge to its authors The authors of this book took the challenge head on by conducting a major research study to determine what exactly the outcomes are that managers at different levels must deliver in contemporary organisations in South Africa and the rest of Africa The findings of this study which dealt with current and near future management issues as well as classical and contemporary thinking about management were used as the blueprint for the updating of this book After placing management in context the authors deal with the knowledge skills and dispositions required of managers to perform the management functions of planning organising leading and controlling in a volatile business world Examples of how the functions are applied in practice are cited throughout the book These examples refer mainly to South African organisations

and situations that managers in South Africa and Africa have to deal with to create and sustain a competitive advantage for their organisations The book endeavours to break down the silo effect of seeing the management functions as separate activities This is done by continuously placing the management function at hand in a bigger context This enables learners of management to assess the implications of management decisions on different people processes systems and so on that make up the organisation
