**Pandora's Box** Jörn Leonhard, 2020-05-05 Winner of the Norman B Tomlinson Jr Prize The best large scale synthesis in any language of what we currently know and understand about this multidimensional cataclysmic conflict Richard J Evans Times Literary Supplement In this monumental history of the First World War Germany's leading historian of the period offers a dramatic account of its origins course and consequences J rn Leonhard treats the clash of arms with a sure feel for grand strategy He captures the slow attrition the race for ever more destructive technologies and the grim experiences of frontline soldiers But the war was more than a military conflict and he also gives us the perspectives of leaders intellectuals artists and ordinary men and women around the world as they grappled with the urgency of the moment and the rise of unprecedented political and social pressures With an unrivaled combination of depth and global reach

Pandora's Box reveals how profoundly the war shaped the world to come. An epic and magnificent work unquestionably for me the best single volume history of the war I have ever read. It is the most formidable attempt to make the war to end all wars comprehensible as a whole. Simon Heffer *The Spectator*. A great book on the Great War. Leonhard succeeds in being comprehensive without falling prey to the temptation of being encyclopedic. He writes fluently and judiciously. Adam Tooze *Die Zeit*. Extremely readable, lucidly structured, focused and dynamic. Leonhard's analysis is enlivened by a sharp eye for concrete situations and an ear for the voices that best convey the meaning of change for the people and societies undergoing it. Christopher Clark, author of *The Sleepwalkers*. Aachen Robert W. Baumer, 2015-01-15. By September 1944 the Allied advance across France and Belgium had turned into attrition along the German frontier. Standing between the Allies and the Third Reich's industrial heartland was the city of Aachen, once the ancient seat of Charlemagne's empire and now firmly entrenched within Germany's Siegfried Line fortifications. The city was on the verge of capitulating until Hitler forbade surrender. **The Discovery of Albania** Johann George von Hahn, 2015-05-12. Johann Georg von Hahn, a nineteenth century Austrian diplomat and explorer, is generally considered to be the founder of Albanian Studies as a scholarly discipline. It was he who first studied the Balkan country and its people and who brought them to the attention of the academic world. Despite this acclaim, his work has not been widely available in English until now. In this volume, Robert Elsie has translated Hahn's most important works relating to his travels and studies in Albania during the mid nineteenth century. Hahn's interests were broad, but he was especially interested in the tribes of Albania and Kosovo and made several ethnographic studies of the cultures and traditions of the tribes he encountered on his travels, including the Kelmendi, Hoti and Kastrati tribes. This volume will be invaluable reading for scholars of Balkan history and anthropology. *New Testament Theology* Thomas R. Schreiner, 2008-06-01. In this substantial volume, Thomas Schreiner takes up the study of New Testament theology, looking for the themes that emerge from a detailed reading of the whole rather than considering the individual writings separately. Two themes in particular emerge. The first concerns redemptive history and the kingdom of God. The New Testament writers adopt the Old Testament vision of God's reign and affirm that it has come in Jesus Christ, although final fulfillment is yet to come. Second, the ultimate goal of the kingdom is God's glory. Schreiner goes on to relate these themes to the life of the believer and the community of faith. Pastors and students will find this a comprehensive and illuminating survey of the unifying themes found throughout the New Testament. A Shark Going Inland Is My Chief Patrick Vinton Kirch, 2019-03-05. Tracing the origins of the Hawaiians and other Polynesians back to the shores of the South China Sea, archaeologist Patrick Vinton Kirch follows their voyages of discovery across the Pacific in this fascinating history of Hawaiian culture from about one thousand years ago. Combining more than four decades of his own research with Native Hawaiian oral traditions and the evidence of archaeology, Kirch puts a human face on the gradual rise to power of the Hawaiian god-kings who, by the late eighteenth century, were locked in a series of wars for ultimate control of the entire archipelago. This lively, accessible

chronicle works back from Captain James Cook's encounter with the pristine kingdom in 1778 when the British explorers encountered an island civilization governed by rulers who could not be gazed upon by common people. Interweaving anecdotes from his own widespread travel and extensive archaeological investigations into the broader historical narrative, Kirch shows how the early Polynesian settlers of Hawai'i adapted to this new island landscape and created highly productive agricultural systems.

War on the Eve of Nations Vladimir Shirogorov, 2021-06-10 In *War on the Eve of Nations: Conflicts and Militaries in Eastern Europe 1450-1500*, Vladimir Shirogorov examines how Eastern European armed forces produced critical geopolitical changes in the region. Analyzing the interactions between changes in warfare and the nation-building process, Shirogorov focuses on developments regarding the Polish-Lithuanian Commonwealth, Muscovy, Sweden, the Kazan Khanate, and Ottoman Turkey.

**Urban Heritage and Sustainability in the Age of Globalisation** Lilia Makhloufi, 2024-09-26 This book offers a deep exploration of architectural and urban heritage using interdisciplinary and intercultural approaches to assess how historical, social, economic, and political factors have impacted heritage development and its sustainability. It sheds light on the stakes of heritage conservation, management, and maintenance in today's globalised world. Through detailed studies of historic cities, the book explores both the tangible aspects of their built heritage—urban fabric, housing, design, construction methods, and materials for thermal comfort—and the intangible components of local communities, including identities, cultures, religions, values, and ways of life. In diverse case studies from Egypt, France, India, Iran, Jordan, Morocco, Syria, and Tunisia, the book addresses not only urban and architectural heritage but also socio-cultural, environmental, and political issues, including economic challenges and climatic concerns. This book is an essential resource for scholars and researchers across fields including architecture, civil engineering, urban planning, sociology, and philosophical anthropology.
