Fortunes Fancy

Aphra Behn

Fortunes Fancy:

Oroonoko Aphra Behn, 2015-02-13 I do not pretend in giving you the history of this Royal Slave to entertain my reader with adventures of a feigned hero whose life and fortunes fancy may manage at the poet's pleasure nor in relating the truth design to adorn it with any accidents but such as arrived in earnest to him and it shall come simply into the world recommended by its own proper merits and natural intrigues there being enough of reality to support it and to render it diverting without the addition of invention

University of Illinois Studies in Language and Literature, 1928 **An Introduction to Eighteenth-Century Fiction** John Skinner, 2017-03-14 The formal and expressive range of canonic eighteenth century fiction is enormous between them Defoe Richardson Fielding Smollett and Sterne seem to have anticipated just about every question confronting the modern novelist and Aphra Behn even raises a number of issues overlooked by her male successors But one might also reverse the coin much of what is present in these writers will today seem remote and bizarre There is in fact only one novelist from the long eighteenth century who is not an endangered species outside the protectorates of university English departments Jane Austen Plenty of people read her moreover without the need for secondary literature These reservations were taken into account in the writing of this book An Introduction to Eighteenth Century Fiction is a comprehensive and accessible introduction to English fiction from Aphra Behn to Jane Austen It deals with novel criticism canon formation and relations between genre and gender The second part of the book contains an extensive discussion of Richardson and Fielding followed by paired readings of major eighteenth century novels juxtaposing texts by Behn and Defoe Sterne and Smollett Lennox and Burney among others The various sections of the book and even the individual chapters may be read independently or in any order Works are discussed in a way intended to help students who have not read them and even engage with some who never will The author consumes eighteenth century fiction avidly but has tried to write a reader friendly survey for those who may not

Zimbardo, 2021-10-21 In this provocative study Rose Zimbardo examines a crucial revolution in aesthetics that took place in the late seventeenth century and that to this day dominates our response to literature Although

artists of that time continued to follow the precept imitate nature that nature no longer corresponds to the earlier understanding of the term What had been in essence an allegorical mode came to be a literal one Focusing on the drama of the period as an exemplary form Zimbardo shows how it moved from depicting a metaphysical reality of idea to portraying an inner reality of individual experience But drama is constrained in expressing the inner experience since its medium is limited to human action The novel arose to replace drama as the popular literary form Zimbardo argues because it could better and more freely convey man's inner world and thereby imitate the new nature The study concluded that the changes which took place in drama during this period and which led to the invention of the novel resulted not from any change of heart or sensibility but from a fundamental change in the understanding of the nature which art was thought to imitate Neither the drama of the 1690s nor the early novel Zimbardo finds was in the least sentimental A Mirror to Nature brings a new critical perspective to bear on literary developments at the end of the seventeenth century one that must be considered by critics and historians of the period

When Blackness Rhymes with Blackness (Dalkey Archive Scholarly Series) Rowan Ricardo Phillips, 2010-07-20 Lyrical provocative and highly original a groundbreaking book by one of America's smartest young poet critics In *When Blackness Rhymes with Blackness* Rowan Ricardo Phillips pushes African American poetry to its limits by unraveling our desire to think of African American poetry as African American poetry Phillips reads African American poetry as inherently allegorical and thus a successful shorthand for the survival of a poetry but unsuccessful shorthand for the sustenance of its poems Arguing in favor of the counterintuitive imagination Phillips demonstrates how these poems tend to refuse their logical insertion into a larger vision and instead dwell indefinitely at the crux between poetry and race where when blackness rhymes with blackness it is left for us to determine whether this juxtaposition contains a vital difference or is just mere repetition From *When Blackness Rhymes with Blackness* Phillis Wheatley like the epigraphs that writers fit into the beginning of their texts is first and foremost a cultural sign a performance It is either in the midst of that performance at a concert or in that performance's retrospection in a cafe that a retrievable form emerges from the work of a poet whose biography casts a far longer shadow than her poems ever have Next to Langston Hughes of all African American poets Wheatley's visual image carries the most weight recognizable to a larger audience by her famed frontispiece her statue in Boston and the drama behind the publication of her book *Poems on Various Subjects Religious and Moral* All of this will be fruit for discussion in the pages that follow Yet I will also be discussing the proleptic nature with which African American literature talks if you will Phillis Wheatley

Warfare, Trade, and the Indies in British Literature, 1652-1771 Peter Craft, 2021-06-22 *Warfare Trade and the Indies in British Literature 1652 1771* demonstrates how British travel narratives of the long eighteenth century distinguished between Mughal and American Indians Through a New Historical and postcolonial lens it argues that the distinction between East and West Indians was widely recognized and shaped British people's tendency to view Mughal Indians as similar and in some ways even superior to Europeans while they

disdained native populations in the Americas Drawing on representations of Indians in Peter Heylyn's critically neglected 1652 *Cosmographie* as well as representations in the works of canonical literary authors such as John Dryden Richard Steele and Henry Mackenzie this monograph provides a more nuanced account of the origins and evolution of Indian stereotypes than scholars have to date A text committed to the exposure and eradication of colonial rhetoric and violence Peter Craft's *Warfare Trade and the Indies in British Literature 1652-1771* proposes a modification of Saidian postcolonial theory that better applies to texts of the seventeenth and eighteenth centuries
