Found Object in Textile Art Cas Holmes, 2010-09-20 Textile artists have always used found objects both for decoration and to imbue their work with meaning Cas Holmes is renowned for her use of the found and her many layered atmospheric pieces have been shown around the world The practice differs from recycling in that the objects often remain themselves when they are incorporated into the work rather than being transformed into something else and their original appearance being obliterated The work is often conceived and built around the found object The definition found object can include a wide range of objects from natural materials such as driftwood and leaves to old bits of machinery and vintage fabrics Mundane objects such as CD cases can be used to create stunning pieces of art or more sentimental items such as old jewellery can lend deep meaning to a work The book covers How to find objects for example in the home walking the streets travel souvenirs Types of found object including natural objects man made items printed ephemera Using found objects using little jewels to decorate work making unusual frames creating work within boxes Creating surfaces with found objects printing layering fusing cutting and stitch This book contains a wealth of techniques and inspiration for incorporating found objects into your textile work Art from Found Objects Jeremy Comins, 1974 Instructions for making sculpture jewelry mobiles collages and other items from various found and mechanical objects **Collage, Assemblage, and the Found Object** Diane Waldman, 1992-01-01 In 1912 Georges Braque and Pablo Picasso created the first papiers collés by gluing pieces of oak grained faux bois wallpaper onto their drawings In 1917 Marcel Duchamp selected a urinal signed it R Mutt and presented it as an object of art under the title Fountain In 1919 Kurt Schwitters began gathering scraps of rubbish and assembled them into a series of works that he titled Merz constructions These acts represent three of the most significant achievements in twentieth century art The definitive book on its subject Collage Assemblage and the Found Object offers a comprehensive and dynamic history of the mediums that revolutionized our ideas about the nature of art and influenced virtually every major art movement of the twentieth century Made up of fragments of debris of rejected pieces and common artifacts of popular culture collage and assemblage are arts of protest of challenge of exploration They emphasize the everyday and commonplace over precious materials and refinement concept and process over end product the temporary and ephemeral over the lasting They propose a dislocation in time and space and by the nature of their makeup offer multiple layers of meaning They also furnish a compelling historical record of their time All these currents are explored by Diane Waldman deputy director and senior curator of the Solomon R Guggenheim Museum New York In clear and cogent prose generously illustrated with examples and comparative works she traces collage the found object and the related development assemblage from their Cubist beginnings to the present Waldman moves from the outrageous experiments of the Dadaists in the 1920s to the irreverent debunkings of the 1960s Pop artists to the provocative appropriation art of the 1990s from the intricate towers and assemblages of the Russian Constructivists early in this century to the surprising piles of materials put

Art and knowledge after 1900 James Fox, Vid Simoniti, 2023-12-12 This ground breaking new history of modern art explores the relationship between art and knowledge from the beginning of the twentieth century to the present day. Each chapter examines artistic responses to a particular discipline of knowledge from quantum theory and theosophy to cybernetics and ethnic futurisms. The authors argue that art's incursion into other intellectual disciplines is a defining characteristic of both modernism and postmodernism. Throughout the volume poses a series of larger questions: is art a source of knowledge? If so, what kind of knowledge? And ultimately, can it contribute to our understanding of the world in ways that thinkers from other fields should take seriously.

The Altered Object Terry Taylor, 2006 Altered art is the fastest growing craft trend today, but its practitioners can't live by books alone; they long to expand their horizons and explore new directions. And this follow up to the hugely successful *Altered Art* will fulfill their creative desires. It moves into uncharted territory, focusing not on books but on transforming the surfaces of a multitude of everyday objects into artistic canvases. The 25 projects clearly prove that the possibilities are limited only by one's own imagination. For example, in the hands of five different crafters, those ubiquitous mint tins become a small shrine, necklace, photo book, and doll. Profusely illustrated, profiles showcase ten contemporary artists doing their work; all provide invaluable insights into the creative process.

Joyce J. Scott Joyce Scott, 2024-04-02 An insightful retrospective of the genre-defying contemporary artist and MacArthur Fellow Joyce J. Scott showcasing contributions from an extraordinary group of artists and scholars. This essential new volume serves as a critical resource and details the richness and complexity of the work of Joyce J. Scott, b. 1948, beginning with an overview of the artist's 50-year career: an interconnected community-generating practice that embraces performance art, beaded necklaces and sculptures, wall hangings, and prints. Interviews with the artist by Leslie King Hammond and Valerie Cassel Oliver focus on Scott's matrilineage and womanist ethos and on the genre-defying choreography of her career across disciplines. Six thematic essays by established and emerging scholars discuss the ancient and global reach of beads, including Yorùbá traditions; consider the utility of satire and performance in connection with the work of emerging Black artists; and explore the significance of geography, history, and place. Excerpts from foundational out-of-print texts and an illustrated chronology, annotated by Scott, appear alongside contributions by artists Sonya Clark, Oletha DeVane, Jeffrey Gibson, Kay Lawal, Muhammad, Malcolm Peacock, and William C. Rhodes III. Scott makes difficult subjects intimately felt, confronting histories of trauma through wearable art.
