Foundation Matter The Body Itself:

Foundation David G. Leahy, 1996-01-01 This book presents the ontological and logical foundation of a new form of thinking the beginning of an absolute phenomenology It does so in the context of the history of thought in Europe and America It explores the ramifications of a categorically new logic Thinkers dealt with include Plato Galileo Hegel Kierkegaard Marx Nietzsche Husserl Heidegger Peirce James Dewey Derrida McDermott and Altizer *Living the Death of God* Thomas J. J. Altizer, 2012-02-01 Theologian Thomas J J Altizer became both famous and infamous as the chief spokesman for death of God theology in the 1960s In the years that followed he has created a theological tradition that has influenced all succeeding generations of theologians *Living the Death of God* is Altizer's theological memoir Taking us from his transformation as a theological student to his present life of solitude Altizer recapitulates the voyage to create a truly new theology The memoir recounts each stage of this voyage from being overwhelmed by Satan to a conversion to the death of God and an extensive and even ecstatic preaching of the death of God However this is the death of that God who is the wholly alienated God a death realizing anew the crucified God or the apocalyptic Christ Written with Altizer's characteristic elegance this book is fascinating on its own account but can also serve the reader as a companion or introduction to Altizer's body of work **D.**

G. Leahy and the Thinking Now Occurring Lissa McCullough, Elliot R. Wolfson, 2021-09-01 This book offers a critical introduction to the work of American philosopher D G Leahy 1937 2014 Leahy's fundamental thinking can be characterized as an absolute creativity in which all creating is live a happening occurring now that manifests a supersaturated polyontological actuality that is essentially created by the logic that characterizes it Leahy leaves behind the categorial presuppositions of modern thought eclipsing both Cartesian and Hegelian subjectivities and introducing instead an essentially new form of thinking founded in a nondual logic of creation The new thinking delineates the absolute unicity of existence as a creative interactivity beyond all traditional dichotomies such as one vs many unity vs plurality identity vs change a fully digitized actuality that is nothing but newness which inherently implies nothing but change Through this new form of thinking change itself is revealed to be the very essence of reality and mind Any reader looking for a quantum leap beyond the thrall of modern and postmodern fixations is invited to hear and apprehend this new thinking that refuses to be conditioned by paradigms categories species genera walls bridges boundaries or abstractions an essentially free thinking that embodies creative novelty itself

Novitas Mundi David G. Leahy, 1994-01-01 The Prolegomena sets out the fundamental perception of the history of being now operative in consciousness The center of the book is comprised of a two part Reflection on the History of Being Part I is an examination of the impact made on the shape of scientific philosophy by the fact of Christian faith Aristotle the sacra doctrina of Thomas Aquinas and their relationship with the modern thinkers Descartes Kant Hegel and Kierkegaard are examined in this section In Part II the history of the conception of time becomes the measure of a prospective analysis of the limits essential to the modern enterprise Augustine Leibniz Husserl and

Heidegger become the major figures here and there is a specific delineation of the relationship of the phenomenologists to Kierkegaard and Hegel **The Palgrave Handbook of Radical Theology** Christopher D. Rodkey, Jordan E.

Miller, 2018-10-10 The Palgrave Handbook of Radical Theology is the definitive guide to radical theology and the commencement for new directions in that field For the first time radical theology is addressed and assessed in a single comprehensive volume including introductory and historical essays for the beginner essays on major figures and their thought and shorter articles on various themes concepts and related topics This book is a seminal work for the radical theology movement It clarifies origins and demonstrates the exigency and utility of current figures and issues A useful and essential guide for newcomers and veterans in the field this volume serves as both a reference work and an introduction to omitted or forgotten topics within contemporary discussions *The Apocalyptic Trinity* T. Altizer, 2012-12-05 This book is a

major step forward in radical theology via a sustained and creative challenge to conventional and orthodox thinking on the Trinity Altizer presents a radical rethinking of the apocalyptic trinity and recovers the apocalyptic Jesus of Hegel Blake and Nietzsche **The Challenge of God** Colby Dickinson, Hugh Miller, Kathleen McNutt, 2020-01-23 In view of the double vocative that characterizes the relation of Creator to creature this book offers critiques of modern and postmodern philosophy for the ways in which they have separated philosophy theology and spirituality This collection examines the complicated relationship of God to Being and the meaning of Revelation as well as highlighting the context and the role of the Spiritual Exercises of Ignatius Loyola Discussions include the Catholic Principle and its relevance in contemporary times and Christian epic visionaries such as Dante Milton Blake and Joyce providing scholars a forum to debate their theological identity and its meaning for future studies This volume contributes a unique engagement from many perspectives with the Catholic intellectual tradition in its philosophical theological spiritual literary and artistic dimensions **Thinking through**

the Death of God Lissa McCullough, Brian Schroeder, 2012-02-01 The leading exponent of the death of God theology of the 1960s Thomas J J Altizer created a media sensation at the time and defined a major new direction in philosophical theology Altizer has continued to refine his thought throughout his career and his systematic theological work has achieved its prime as shown in this collaborative critical response to his thought This book is also the first collection of its kind to appear in nearly thirty years and thus the first to deal with the most sophisticated period of his work A response from Altizer is included along with a comprehensive bibliography of his work *The Call to Radical Theology* Thomas J. J.

Altizer, 2013-01-02 The major death of God theologian explores the meaning and purpose of radical theology *The Genesis of God* Thomas J. J. Altizer, 1993-04-15 Thomas Altizer one of America's premier theologians searches for a proper understanding of the Christian God which he believes can only be explicated when the question of origin is raised He begins with an investigation of Hegelian thinking develops his insights in dialogue with such thinkers as Augustine and Nietzsche and then focuses on notions generated by the Christian epic poetry of Dante Milton and Blake By explicating the absolute

origin of God that only Christianity knows Altizer discloses the origin of a uniquely Christian freedom while also touching upon such important themes as predestination the fall evil and eternity **Encyclopedia of Postmodernism** Victor E. Taylor, Charles E. Winquist, 2003 Provides comprehensive and authoritative coverage of academic disciplines critical terms and central figures relating to the vast field of postmodern studies Publisher's description **The Quarterly Christian Spectator** ,1836 **Dr. W.
