Illustrated, Etc** Herbert Langford WARREN,1919    **The Foundations of Classic Architecture** Herbert Langford Warren,2015-06-16 Excerpt from The Foundations of Classic Architecture In this work of Langford Warren left in manuscript at his death is presented in enduring form the essence of his vital teaching of the history and principles of architecture Its importance for the generation which has heard his inspiring message a generation which has recreated an architecture of knowledge order and classic beauty is best expressed in the words of his own essay on the study of architectural history We cannot if we would escape the influence of all the art of the past which is brought to our doors and as it were thrust into our hands Our choice lies simply between really knowing it and using it wisely in the fulness of knowledge or knowing it only superficially and misusing and misapplying it ignorantly We must seek to combine scholarship with artistic impulse and enthusiasm must seek to give that impulse and enthusiasm the sure basis of knowledge For the support which the architect of the past received from tradition we must substitute scholarship Not the scholarship which is concerned with facts merely with arch ological study of outward forms but the scholarship concerned with principles which studies the art of the great epochs of the past in order to understand if possible those fundamental qualities which made it great which penetrates to the meaning of the forms used which analyses and compares for the purpose of gaining inspiration in order that it may create by following consciously the principles which are seen to have been followed unconsciously in the great art of the past developing if possible by degrees a tradition of what is best in all past forms because it understands what to take and what to modify in order to meet the conditions of the present About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works    **The Ten Books on Architecture** Vitruvius Pollio,2019-11-19 In The Ten Books on Architecture Vitruvius Pollio meticulously explores the principles of architecture intertwining practical knowledge with philosophical insights This seminal work is notable for its structured approach dividing its teachings into ten distinct books that cover topics ranging from materials and construction techniques to the ideal proportions and aesthetic considerations of buildings Written in the 1st century BCE Vitruvius s treatise stands out not only for its technical rigor but also for its literary elegance embodying the classical spirit of Roman thought that valued knowledge utility and beauty in harmonious proportions Vitruvius a Roman architect and engineer drew upon his extensive experience in

military and civil engineering offering a unique perspective that reflects the challenges and innovations of his time His background in architecture combined with the broader cultural milieu of the Roman Republic informed his belief in architecture as a reflection of moral and civic values This confluence of theory and practice is a testament to Vitruvius's commitment to elevating the field of architecture into a respected discipline I wholeheartedly recommend *The Ten Books on Architecture* not only to students and practitioners in the field but also to anyone interested in the enduring principles of design and harmony Vitruvius's timeless insights continue to resonate making this work essential reading for understanding the foundations of Western architecture     [The Foundations of Classic Architecture; Illustrated from Documents and Original Drawings](#) Herbert Langford Warren,1919
