**Foundations of Modern Art** Amédée Ozenfant, 1952      *Midcentury Modern Art in Texas* Katie Robinson Edwards, 2014-07-01 Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state s dramatic history and geography This barely known chapter in the story of American art is the focus of *Midcentury Modern Art in Texas* Presenting new research and artwork that has never before been published Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era s most abstract and compelling artists Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art s Americans exhibitions The first full length treatment of abstract art in Texas during this vital and canon defining period *Midcentury Modern Art in Texas* gives these artists their due place in American art while also valuing the quality of Texan ness that subtly undergirds much of their production      *Art. Foundations of Modern Art, etc.* Translated by E. Allen Asburn. Amédée Ozenfant, E. Allen ASBURN, 1931

*Photography* J. Paul Getty Museum, 1990 A discussion of the pioneers of the first decades of photography along with essays on early collectors and patents      *Cubism* Emily Braun, Rebecca A. Rabinow, 2014-10-09 This beautifully illustrated volume tells the story of Cubism through twenty two essays that explore the most significant private holding of Cubist art in the world today the Leonard A Lauder Collection now a promised gift to The Metropolitan Museum of Art The eighty works featured in this volume by Georges Braque Juan Gris Fernand L ger and Pablo Picasso are among the most important and

visually arresting in the movement's history. These masterpieces critical to the development of Cubism include such groundbreaking paintings as Braque's *Trees at L'Estaque* considered one of the very first Cubist pictures, Picasso's *Still Life with Fan*, *L'Inde* pendant one of the first to introduce typography, Gris's *noirish* uncanny *The Man at the Café* one of his most celebrated collages and Léger's uniquely ambitious *Composition: The Typographer*. Written by renowned experts on this subject, the essays trace the evolution of Cubism from its origins in the still lifes, portraits and collages of Braque and Picasso through the precisely delineated compositions by Gris that prefigure the Synthetic Cubism of the war years to Léger's distinctive intersections of spherical, cylindrical and cubic forms that evoke the syncopated rhythms of modern life. Also included are a fascinating interview in which Leonard Lauder discusses his approach to collecting, an investigative essay on the information gleaned from the backs of the works themselves and an authoritative catalogue that further establishes the lives of these magnificent objects. A publication to place alongside the great histories of Modernism, this comprehensive book will stand as the resource for understanding Cubism for many years to come.
