Hollywood Days And Nights:

Days of Twilight, Nights of Frenzy Werner Schroeter, Claudia Lenssen, 2017-07-18 Werner Schroeter was a leading figure of New German Cinema. In more than forty films made between 1967 and 2008 including features, documentaries and shorts, he ignored conventional narrative, creating instead dense, evocative collages of image and sound. For years, his work was eclipsed by contemporaries such as Wim Wenders, Rainer Werner Fassbinder, Werner Herzog and Alexander Kluge. Yet his work has become known to a wider audience through several recent retrospectives, including at the Museum of Modern Art, New York. Written in the last years of his life, *Days of Twilight, Nights of Frenzy* sees Schroeter looking back at his life with the help of film critic and friend Claudia Lenssen. Born in 1945, Schroeter grew up near Heidelberg and spent just a few weeks in film school before leaving to create his earliest works. Over the years, he would work with acclaimed artists including Marianne Hopps, Isabelle Huppert, Candy Darling and Christine Kaufmann. In the 1970s, Schroeter also embarked on prolific parallel careers in theater and opera, where he worked in close collaboration with the legendary diva Maria Callas. His childhood, his travels in Italy, France and Latin America, his coming out and subsequent life as a gay man in Europe, and his run-ins with Hollywood are but a few of the subjects Schroeter recalls with insights and characteristic understated humor. A sharp, lively, even funny memoir, *Days of Twilight, Nights of Frenzy* captures Schroeter's extravagant life vividly over a vast, prolific career, including many stories that might have been lost were it not for this book. It is sure to fascinate cinephiles and anyone interested in the culture around film and the arts.

Hollywood's Dirtiest Secret Hunter Vaughan, 2019-03-12 In an era when many businesses have come under scrutiny for their environmental impact, the film industry has for the most part escaped criticism and regulation. Its practices are more diffuse, its final product less tangible, and Hollywood has adopted public relations strategies that portray it as environmentally conscious. In *Hollywood's Dirtiest Secret*, Hunter Vaughan offers a new history of the movies from an environmental perspective, arguing that how we make and consume films has serious ecological consequences. Bringing together environmental humanities, science, communication, and social ethics, *Hollywood's Dirtiest Secret* is a pathbreaking consideration of the film industry's environmental impact that examines how our cultural prioritization of spectacle has distracted us from its material consequences and natural resource use. Vaughan examines the environmental effects of filmmaking from Hollywood classics to the digital era, considering how popular screen media shapes and reflects our understanding of the natural world. He recounts the production histories of major blockbusters like *Gone with the Wind*, *Singin' in the Rain*, *Twister*, and *Avatar*, situating them in the contexts of the development of the film industry, popular environmentalism, and the proliferation of digital technologies. Emphasizing the materiality of media, Vaughan interweaves details of the hidden environmental consequences of specific filmmaking practices, from water use to server farms, within a larger critical portrait of social perceptions and valuations of the natural world.
