Shull, David Edward Wilt, 2015-09-03 From 1937 through 1945 Hollywood produced over 1 000 films relating to the war This enormous and exhaustive reference work first analyzes the war films as sociopolitical documents Part one entitled *The Crisis Abroad 1937 1941* focuses on movies that reflected America s increasing uneasiness Part two *Waging War 1942 1945* reveals that many movies made from 1942 through 1945 included at least some allusion to World War II *The Literary Review*, 2004 **The City Under the Skin** Geoff Nicholson, 2014-06-03 A cartographic thriller with so many twists and turns it requires its own map A cartography obsessed misfit clerk from an antique map store in a district that s not quite trendy yet A bold young woman chasing the answer to a question she can t quite formulate A petty criminal hoping the parking lot he s just purchased is the ticket to a new life of respectability with his school age daughter A ruthless but vulnerable killer and his disgruntled accomplice In *The City Under the Skin* it s not fate that will bind these characters together but something more concrete and sinister the appearance of a group of mysterious women their backs crudely and extensively tattooed with maps They have been kidnapped marked and released otherwise unharmed When one turns up on the doorstep of the map shop and abruptly bares her back only to be hustled away by a man in a beat up blue Cadillac it s the misfit clerk Zak pushed by his curious new friend Marilyn who finds himself reluctantly entering a criminal underworld whose existence he d prefer to ignore In this haunting literary thriller Geoff Nicholson paints a deft portrait of a city in transition His sharply drawn characters are people desperate to know where they are but scared of being truly seen A meditation on obsession and revenge a hymn to the joys of urban exploration *The City Under the Skin* is a wholly original novel about the indelible scars we both live with and inflict on others *Transnational Perspectives on Artists' Lives* Marleen Rensen, Christopher Wiley, 2020-10-06 This book demonstrates the significance of transnationality for studying and writing the lives of artists While painters musicians and writers have long been cast as symbols of their associated nations

recent research is increasingly drawing attention to those aspects of their lives and works that resist or challenge the national framework The volume showcases different ways of treating transnationality in life writing by and about artists investigating how the transnational can offer intriguing new insights on artists who straddle different nations and cultures It further explores ways of adopting transnational perspectives in artists biographies in order to deal with experiences of cultural otherness or international influences and analyses cross cultural representations of artists in biography and biofiction Gathering together insights from biographers and scholars with expertise in literature music and the visual arts Transnational Perspectives on Artists Lives opens up rich avenues for researching transnationality in the cultural domain at large [The New York Times Index](#) ,2005 **Rethinking the Novel/Film Debate** Kamilla Elliott,2003-08-07 Sample Text
