Making a Massacre Tom Reilly,2024-06-28 If history were music then the genre of this book would be punk For nearly 400 years it has been widely accepted that Oliver Cromwell committed civilian atrocities at Drogheda and Wexford in 1649 thus adversely infecting Anglo Irish relations for that entire period As well as other events in Irish history Cromwell in Ireland has often been weaponised in the North of Ireland Still today emotions about this topic run very deep Imagine for a moment that Cromwell is completely innocent of these charges of genocide the overwhelming verdict of history thus far Imagine also a scenario in which this anomaly in the teaching of Irish history were discovered by a non historian an amateur who failed second level history This is that story This is an accurate and sideways account of one man's lone battle to overturn this miscarriage of historical justice two middle fingers to mainstream academia Most significantly this is the story of the pushback the author has encountered from academics in general who have closed ranks in their reluctance to embrace incontrovertible facts This is the uncomfortable truth that challenges Ireland's role of the ultimate victim of the seventeenth century's conflicts and how this historical period has been and still is profoundly abused to suit the Saorstát ireann narrative
