What Ought to Scare You H. Marshall Leicester,2024-07-09 Using the Hollywood studio system 1931 1960 as a historical center this book performs close readings of classic horror films such as *Frankenstein* and *Cat People* while asking the following three questions What about this movie is weird What does this movie think ought to scare you If there weren t monsters in this movie what would be wrong with these people s lives These questions guide readers toward the uniqueness of horror films in relation to the way they are classified and the feeling of horror that they offer The horror genre is a collection of culturally shared elements words images or themes used to signify or evoke horror because they have been used that way before Instead of treating movies as examples of the horror genre through how they evoke feelings from viewers this book locates the meaning of horror within individual films and shows how movies make their own genealogies and complicate their own scares in an evolution of the genre It argues that classic horror movies are forms of reception of and resistance to the ideas of horror that were current in their historical period Working historically the author traces movies interactions with their precursors and co conspirators to show how they are the agents of historical changes in the genre and in what we take to be horror *Hollywood Horror* Megan Stine,H. William Stine,1989 **The Hollywood Horror Film,**

1931-1941 Reynold Humphries,2006-07-24 By addressing these elements *The Hollywood Horror Film 1931 1941* will be of interest not only to scholars of film but also to those of political and cultural studies as well as psychoanalysts and philosophers **BOOK JACKET** **Hollywood's Others** Katherine Fusco,2025-09-02 We tend to think about movie stars as either glamorous or relatable But in the 1920s and 1930s when the Hollywood star system was taking shape a number of unusual stars appeared on the silver screen representing groups from which the American mainstream typically sought to avert its eyes What did it mean for a white entertainment columnist to empathize with an ambiguously gendered Black child

star Or for boys to idolize Lon Chaney famous for portraying characters with disabilities Hollywood's Others explores the affective ties between white non disabled audiences and the fascinatingly different stars with whom they identified but only up to a point Katherine Fusco argues that stardom in this era at once offered ways for viewers to connect across group boundaries while also policing the limits of empathy Examining fan magazines alongside film performances she traces the intense audience attachment to atypical celebrities and the ways the film industry sought to manage it Fusco considers Shirley Temple's career in light of child labor laws and changing notions of childhood shows how white viewers responded to Black music in depictions of the antebellum South and analyzes the gender politics of conspiracy theories around celebrity suicides Shedding light on marginalized stardoms and the anxieties they provoked Hollywood's Others challenges common notions about film's capacity to build empathy

The Spectre of Sound Kevin Donnelly, 2019-07-25 This book is a major new study dealing with notions of film music as a device that desires to control its audience using a most powerful thing emotion The author emphasises the manipulative and ephemeral character of film music dealing not only with traditional orchestral film music but also looks at film music's colonisation of television and discusses pop music in relation to films and the historical dimensions to ability to possess audiences that have so many important cultural and aesthetic effects It challenges the dominant but limited conception of film music as restricted to film by looking at its use in television and influence in the world of pop music and the traditional restriction of analysis to valued

film music either from name composers or from the golden era of Classical Hollywood Focusing on areas as diverse as horror pop music in film ethnic signposting television drama and the soundtrack without a film this is an original study which expands the range of writing on the subject

Possessed Women, Haunted States Christopher J. Olson, Carrie Lynn D. Reinhard, 2016-11-02 Since the release of *The Exorcist* in 1973 there has been a surge of movies depicting young women becoming possessed by a demonic force that only male religious figures can exorcise thereby saving the women from eventual damnation This book considers this history of exorcism cinema by analyzing how the traditional exorcism narrative established in *The Exorcist* recurs across the exorcism subgenre to represent the effects of demonic possession and ritual exorcism This traditional exorcism narrative often functions as the central plot of the exorcism film with only the rare film deviating from this structure The analysis presented in this book considers how exorcism films reflect reinforce or challenge this traditional exorcism narrative Using various cultural and critical theories this book examines how representations of possession and exorcism reflect reinforce or

challenge prevailing social cultural and historical views of women minorities and homosexuals In particular exorcism films appear to explore tensions or fears regarding empowered and sexually active women and frequently reinforce the belief that such individuals need to be subjugated and disempowered so that they no longer pose a threat to those around them Even more recent films produced after the emergence of third wave feminism typically reflect this concern about women Very rarely do exorcism films present empowered women and feminine sexuality as non threatening In examining this subgenre of horror films this book looks at films that have not received much critical scrutiny regarding the messages they contain and how they relate to and comment upon the historical periods in which they were produced and initially received Given the results of this analysis this book concludes on the necessity to examine how possession and exorcism are portrayed in popular culture

Hollywood's Imperial Wars Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in Hollywood's Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter* *Apocalypse Now* and *Platoon* As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like *American Sniper* that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts
