expand and thrive attracting new scholars and fresh ideas direction and research Given the dynamism of the field experienced and beginning instructors alike need resources for bringing the study of film into the classroom This volume will help instructors conceptualize contemporary film studies in pedagogical terms The first part of the volume features essays on theory and on representation including gender race and sexuality Contributors then examine the geographies of cinema and offer practical suggestions for structuring courses on national regional and transnational film Several essays focus on interdisciplinary approaches while others describe courses designed around genre film noir the musical mode animation documentary avant garde film or the formal elements of film such as sound music and mise en sc ne The volume closes with a section on film and media in the digital age in which contributors discuss the opportunities and challenges presented by access to resources media convergence and technological developments in the field

**Theory Aside** Jason Potts, Daniel Stout, 2014-05-14 Where can theory go now Where other voices concern themselves with theory s life or death the contributors to Theory Aside take up another possibility that our theoretical prospects are better served worrying less about what s next and more about what else Instead of looking for the next big thing the fourteen prominent thinkers in this volume take up lines of thought lost or overlooked during theory s canonization They demonstrate that intellectual progress need not depend on the discovery of a new theorist or theory Moving subtly through a diverse range of thinkers and topics aesthetics affect animation and film studies bibliography cognitive science globalization phenomenology poetics political and postcolonial theory race and identity queer theory and sociological reading practices the contributors show that a more sustained less apocalyptic attention to ideas might lead to a richer discussion of our intellectual landscapes and the place of the humanities and social sciences in it In their turn away from the radically new these essays reveal that what s fallen aside still surprises Contributors Ian Balfour Karen Beckman Pheng Cheah Frances Ferguson William Flesch Anne Lise Fran ois Mark B N Hansen Simon Jarvis Heather Love Natalie Melas Jason Potts Elizabeth A Povinelli Eve Kosofsky Sedgwick Jordan Alexander Stein Daniel Stout Irene Tucker
