Jews, Catholics, and the Burden of History Eli Lederhendler, 2006-03-02 Volume XXI of the distinguished annual Studies in Contemporary Jewry marks sixty years since the end of the Second World War and forty years since the Second Vatican Council s efforts to revamp Church relations with the Jewish people and the Jewish faith Jews Catholics and the Burden of History offers a collection of new scholarship on the nature of the Jewish Catholic encounter between 1945 and 2005 with an emphasis on how this relationship has emerged from the shadow of the Holocaust Local Theories of Argument Dale Hample, 2021-03-25 Argumentation is often understood as a coherent set of Western theories birthed in Athens and developing throughout the Roman period the Middle Ages the Enlightenment and Renaissance and into the present century Ideas have been nuanced developed and revised but still the outline of argumentation theory has been recognizable for centuries or so it has seemed to Western scholars The 2019 Alta Conference on Argumentation co sponsored by the National

Communication Association and the American Forensic Association aimed to question the generality of these intellectual traditions This resulting collection of essays deals with the possibility of having local theories of argument local to a particular time a particular kind of issue a particular place or a particular culture Many of the papers argue for reconsidering basic ideas about arguing to represent the uniqueness of some moment or location of discourse Other scholars are more comfortable with the Western traditions and find them congenial to the analysis of arguments that originate in discernibly distinct circumstances The papers represent different methodologies cover the experiences of different nations at different times examine varying sorts of argumentative events speeches court decisions food choices and sound explore particular personal identities and the issues highlighted by them and have different overall orientations to doing argumentation scholarship Considered together the essays do not generate one simple conclusion but they stimulate reflection about the particularity or generality of the experience of arguing and therefore the scope of our theories **Qôsmianî** Wilbur Massat

American historian and a leading public intellectual in the first half of the twentieth century Beard participated actively in the debates about American politics and foreign policy surrounding the two world wars In a radical change of critical focus Charles Austin Beard places the European dimension of Beard s thought at the center correcting previous biographers oversights and presenting a far more nuanced appreciation for Beard s life Drake analyzes the stages of Beard s development as a historian and critic his role as an intellectual leader in the Progressive movement the support that he gave to the cause of American intervention in World War I and his subsequent revisionist repudiation of Wilsonian ideals and embrace of non interventionism in the lead up to World War II Charles Austin Beard shows that as Americans tally the ruinous costs both financial and moral of nation building and informal empire the life and work of this prophet of history merit a thorough reexamination

The Comfort Women Hoax J. Mark Ramseyer, Jason M. Morgan, 2024-01-23 During World War II the Japanese military extended Japan s civilian licensing regime for domestic brothels to those next to its overseas bases It did so for a simple reason to impose the strenuous health standards necessary to control the venereal disease that had debilitated its troops in earlier wars In turn these brothels dubbed comfort stations recruited prostitutes through variations on the standard indenture contracts used by licensed brothels in both Korea and Japan The party line in Western academia though is that these comfort women were dragooned into sex slavery at bayonet point by Japanese infantry But as the authors of this book show that narrative originated as a hoax perpetrated by a Japanese communist writer in the 1980s It was then spread by a South Korean organization with close ties to the Communist North Ramseyer and Morgan discuss how these women really came to be in Japanese military comfort stations Some took the jobs because they were tricked by fraudulent recruiters Some were under pressure from abusive parents But the rest of the women seem to have been driven by the same motivation as most prostitutes throughout history want of money Indeed the notion that these comfort women became prostitutes by any other means has no basis in documentary history Serious intellectuals of all political perspectives in both South Korea and Japan have understood this for years Ramseyer and Morgan s findings caused a firestorm in Japanese Studies academia For explaining that the women became prostitutes of their own volition both authors of this book found themselves cancelled In this book the authors detail both the history of the comfort women and their own persecution by academic peers Only in the West and only through brutal stratagems of censorship and ostracism has the myth of bayonet point conscription survived
