

# 10 SMART TIPS TO GET YOUR KIDS TO LISTEN TO YOU

## 1. GET ON THEIR LEVEL

Don't start talking until you have your child's full attention. Kneel down in front of him and make eye contact while making your request.

## 3. USE FEWER WORDS

Children need short and simple sentences that offer direct instructions.

## 5. SET UP ROUTINES

It is important for you to establish a set of routine for your child. They will take pride in knowing what they are supposed to do – and doing it by themselves without you nagging.

## 7. GET INTO THEIR SPACE

Show them respect when you make time to listen to their concerns, and it will be easier for them to show respect back when they feel respected.

## 9. USE POSITIVE LANGUAGE

Children respond better to direct instructions that tell them what to do rather than what cannot be done.

## 2. OFFER CHOICES

Kids do not want to be told what to do all the time so always provide them two choices for them to pick from so they will feel that they are in control of the situation.

## 4. ENSURE COMPREHENSION

Speak to your child at a level she will understand.

## 6. LISTEN

Having good family communication and active listening can do several things to encourage your child to listen.

## 8. ENGAGE COOPERATION

Kids need to see the importance of following directions. For example: When you finish your homework, you can play with your toys.

## 10. POSITIVE REINFORCEMENT

When your child follows your directions, provide positive consequences to reinforce the behavior like a compliment or a surprise reward once in a while.

Rockefeller,2015-11-24 The relationship between a child and parent is without a doubt a very private and personal matter The idea of giving parents instructions on how to talk with their kids never sits right However parents should understand that the more they talk about things the more comfortable it will be for them Why not talk with kids in order to make them listen to you and why not listen to kids to make them talk The way parents talk to their kids has a huge impact on their ability to learn and listen Parents need to understand that they are constant examples to their kids on how to behave and act and talking to them fits perfectly in this matter Normally there are 3 different ways parents communicate with their kids and the first one is the aggressive way This usually involves yelling and putting their kids down by using attacking words This can make children to respond in several ways mainly through acting out ignoring the parent s order yelling back or feeling very fearful The second communication form is commonly seen in passive form Parent who fall under this category mutter softly use very cautious tones and words and even will just walk over their

children when they find them fighting Unfortunately when the time comes that they re pushed to their limits they will suddenly burst and eventually turn into an aggressive communication tone The last and the third way that parents use to communicate with their children is the assertive way So far this is the most perfect way to communicate with kids at all time and levels Assertive communication is firm confident warm positive clear and consistent Assertive communication with kids is a skill and it shows to kids that dad and mom know what they are about to say and will make them eventually listen It s also very important for parents to understand that the importance of making their children listen to them is as equal as listening to them In this book parents will learn how to communicate with their kids in the most effective ways in order to make them listen and communicate effectively Also included in this book are the ways to help children deal with their feelings engage in cooperation effective and best alternatives to punishments how to encourage autonomy in children how to praise them and many other things that will make the parent and child relationship even better and closer A parent should understand what is written in this book for a much better parenting experience     *How to Behave So Your Preschooler Will, Too!* Sal
