Helmick SJ, 2010-04-22 Catholics especially in the U S are sharply divided over what constitutes faithful Catholicism a quest for the relevance of their faith to the actualities of their lives or unquestioning obedience to the precepts of Church leadership Tension over these questions goes to such extremes that it has drastically reduced church going and identification of Catholics with the institution within a remarkable brief period of time Writing in sharp accessible language Helmick attempts to focus these issues on the nature of faith To do so involves exploring the task of theologians who are in the first line of attack by those who see submissiveness as criterion of fidelity He balances this with a study of the nature of orthodoxy still concentrated especially on theologians and those Catholics who want to read and discuss relevant material on living their faith in the real world The early chapters take these themes faith theologians orthodoxy in turn From there the remaining chapters describe the contentious character of our current life in the Church and the critical questions facing up to wedge issues in the political realm dealing with the long running sexual abuse crisis the flagging ecumenical front and the fundamental task of reconciliation as mission of the Church
