

Purpose of College

The principal aim of an undergraduate liberal arts education has traditionally been to cultivate a student's understanding of a broad range of important areas of knowledge, from the fine arts to the sciences, philosophy, language, economics—these things have been seen as crucial to understanding, and participating in, the larger world beyond the classroom. Some, however, believe that this kind of education has failed to provide students with the practical skills necessary to succeed in an increasingly competitive and career-focused society, suggesting we need to reconsider what university programs should look like. Such proposals are often framed as a pragmatic response to trends in the economy and predictions about the skills, knowledge, and training that will best serve students' career readiness. Given this proposed shift in emphasis toward skills-based education, it's worth considering what the overall goal of an undergraduate education should be.

to recognize exactly what each question is asking you will learn what kind of language is appropriate for the answer Extreme language may be a common pitfall but so is avoiding extreme language when it is actually the answer 4 Get the Big Picture This LSAT prep book aims to present you with the big picture how arguments work in day to day life In our experience as LSAT instructors we have noticed a trend students who make an effort to apply the logical principles on the LSAT to arguments in their daily lives tend to improve much more quickly than students who only study the LSAT on paper If you are open to changing the way you argue or to analyzing your own argumentative patterns odds are that you will come to a deeper more fundamental understanding of what the LSAT is testing This will help you not only on this test but as a law student and attorney

conditions is set forth beneath the passage. These rules or conditions must be adhered to by test takers as they work within the scenario to answer questions. Several questions relate to each passage and rule list or list of conditions. The questions ask test takers to determine ordering, grouping, and other various relationships that could exist within the scenario. In order to achieve a correct answer, the rule list and any new question-specific rules or instructions must be adhered to. The questions ask test takers to perform deceptively simple tasks such as arranging package deliveries in order, scheduling appointments in time slots, distributing spots for admission, and organizing seating arrangements around tables. However, the detailed rule list and question-specific requirements make these questions especially challenging.

Reading Comprehension Questions

Reading comprehension questions present to test takers three lengthy reading passages and one set of comparative reading passages; these are two shorter passages that you consider together. Reading comprehension questions ask five to eight detailed questions about each passage or set of comparative passages. The questions require you to demonstrate a detailed understanding of what you have read; test takers succeed when they can thoroughly comprehend the reading. Passage topics are varied; they most often include humanities, science, legal, and social science texts. However, other types of passages will sometimes be included by the test writers. The three lengthy passages generally reflect sophisticated writing and vocabulary and can contain unusual complexities in argument structure and viewpoint. The two shorter comparative reading passages require test takers to consider the relationship of one passage to the other; test takers answer questions regarding points made in one and then juxtapose these to counterpoints made in the other. Test takers will also consider individual applications of principles and the principles themselves as well as generalities and specific instances in relation to passage arguments and descriptions.

The Writing Sample

The writing sample is the essay portion of the LSAT. While the writing sample is mandatory, it is not graded and is therefore not a part of your LSAT score. Law schools independently evaluate each applicant's LSAT writing sample after receiving the potential law student's application.
