Korea And The World Beyond The Cold War:

Korea And The World Young Whan Kihl, 1994-04-20 During the Cold War era Korea's security agenda was defined largely by superpower rivalry. The goal of U.S. strategy as reflected in the Truman Doctrine was to stem the tide of communist expansionism and contain Soviet power within the USSR's existing borders. Korea was cast as a crucial buffer and fulcrum in the balance of power among the major powers surrounding the peninsula and North Korea's invasion in 1950 of its southern neighbor was seen as a key test of containment policy. Now that the Cold War is over it is time to reconsider the Korean peninsula's strategic role in global and regional politics. In this book leading scholars provide new perspectives on Korea's changing role in the new world order. What are the implications of the dramatic end of the Cold War for East Asia and the Korean peninsula? Will peace and prosperity return to the region followed by the reunification of divided Korea? Or will history repeat itself in the form of violent conflict and rivalry as in late nineteenth and early twentieth century East Asia? The contributors consider these questions in the context of major powers' policies toward the Korean peninsula, inter-Korean relations and revived prospects for Korean reunification.

The Third World Beyond the Cold War Louise Fawcett, Yezid Sayigh, 1999-04-01 The Third World Beyond the Cold War presents an overview of the changes brought about in Third World countries since the end of the cold war. The book does so in two ways by highlighting major areas of change in the Third World and using regional case studies as a means of isolating changes specific to certain regions. The themes chosen by the editors: economics, politics, security are not of course exhaustive but are broadly interpreted so as to encompass the major areas of change among Third World countries. The regional case studies: Asia Pacific, Latin America, South Asia, Africa, the Middle East were selected to bring out both the themes and the diversity of experience. The essays written by leading scholars in the field of International Relations caters for a variety of constituencies: those who seek the big picture in understanding the Third World in International Relations; those who look for general patterns, explanations and trends in Third World politics; and those who seek up to date information and analysis on the progress of different regions.

The Guerilla Dynasty Adrian Buzo, 2018-02-19 Throughout the 1990s North Korea has operated under a skeptical international eye due largely to the country's rigorous self-imposed isolation, its on-going confrontation with South Korea, a controversial nuclear arms program and the near total collapse of its economy. North Korea's leaders have chosen to face the world with its

Stalinist political culture and ideological framework intact for better or worse and by most reports almost exclusively for the worst. How did this situation come to be and what are its consequences? In *The Guerilla Dynasty* Adrian Buzo gives us an accessible up to date and rigorously researched account of the political economic and foreign policy developments in North Korea since 1945. *Dealing with Korea* Craig R. Firth, 1998. A combination of crises and hardships currently threatens the North Korean regime with collapse. Accompanying this threat however is the opportunity to gently draw North Korea into wider engagement with the international community. Halting progress toward peaceful reunification has been achieved but more effort from external sources is necessary to accelerate the process. Among official U S agencies only the military currently possesses the ability to subtly enhance the engagement process on the peninsula without any major concessions on its part. The author summarizes the geopolitical history of the peninsula and addresses the issues confronting North Korea. He then proposes a model with which the U S military could bolster North Korean confidence in the possibility of reduced tensions on the peninsula without compromising its own security or readiness in any way. He bases the model on the precedent set by NATO during the decline of the Soviet Union. Aware that discussions of troop reductions arms reductions and the like are beyond the exclusive purview of the military the author recommends modification to the schedule and scope of joint combined exercises as the appropriate tool to influence the security environment in a subtle yet to North Korea highly symbolic and significant manner. *Peace and Security in Northeast Asia* Peter Hayes, Young Whan Kihl, 2016-09-16. This work provides an analysis of North Korea's nuclear controversy from a variety of perspectives including nuclear reactor technology and technology transfer economic sanctions and incentives confidence building measures environmental challenges and the views of Korea and the major powers. **South Korea's Rise** Uk Heo, Terence Roehrig, 2014-07-03.
