Brandt, 1971 Monograph on the social and cultural anthropology of a rural area village in Korea R where both farming and deep sea fishing are practised analyses the economy social structure ideology etc Bibliography pp 241 to 244 graph illustrations maps and statistical tables State and Society in Contemporary Korea Hagen Koo, 2018-07-05 No detailed description available for State and Society in Contemporary Korea *Island Musics* Kevin Dawe, 2020-05-26 What does the music of Madagascar or Trinidad tell us about the islands themselves and their inhabitants Is there something unique about island musics How does island music differ from its mainland counterparts Drawing on a range of diverse examples from around the globe this book examines the culture of island music and offers insight into local identities Case studies look at how music tradition popular culture and islander life are linked in modern maritime societies The islands covered include Crete Ibiza Zanzibar Trinidad Cuba Madagascar and Papua New Guinea In revealing the current practice behind modern island musics the book considers the role of world music exotica global tourism novels and travel writing in constructing fanciful images of islanders and island life Island Musics throws into question some of our most basic notions and assumptions about island societies There are a number of problems common to all island societies that vary in significance depending on an islands size demographics and its proximity to the mainland Problems include remoteness and insularity peripherality to centralized sites of decision making a limited range of natural resources specialization of economics small markets a narrow skills base poor infrastructure and environmental fragility These issues are discussed in relation to the creation of music in the construction of an islander identity Of particular interest is the way in which islanders discuss their music and how it articulates the idea of the other and diaspora Finally Island Musics considers the musical industry music education and the preservation of musical cultural heritage *The Making of Modern Korea* Adrian Buzo, 2016-09-13 This fully updated third edition of The Making of Modern Korea provides a thorough balanced and engaging history of Korea from 1876 to the present day The text is unique in analysing domestic developments in the two Koreas in the wider context of regional and international affairs Key features of the book include Comprehensive coverage of Korean history Expanded coverage of social and cultural affairs A new chapter covering the end of the Choson Dynasty in the context of Japanese imperialist expansionism Up to date analysis of important contemporary developments in both Koreas including assessments of the Kim Jong Il and Kim Jong Un administrations and the North s nuclear weapons program Comparative focus on North and South Korea An examination of Korea within its regional context A detailed chronology and suggestions for further reading The Making of Modern Korea is a valuable one volume resource for students of modern Korean history international politics and Asian Studies **Discipline and Development** Diane E. Davis, 2004-03-22 Perhaps the most commonly held assumption in the field of development is that middle classes are the bounty of economic

modernization and growth As countries gradually transcend their agrarian past and become urbanized and industrialized so the logic goes middle classes emerge and gain in number complexity cultural influence social prominence and political authority Yet this is only half the story Middle classes shape industrial and economic development they are not merely its product the particular ways in which middle classes shape themselves and the ways historical conditions shape them influence development trajectories in multiple ways This is the story of South Korea s and Taiwan s economic successes and Argentina s and Mexico s relative failures through an examination of their rural middle classes and disciplinary capacities Can disciplining continue in a context where globalization squeezes middle classes and frees capitalists from the state and social contracts in which they have been embedded Making Majorities Dru C. Gladney,1998 Majorities are made not born This book argues that there are no pure majorities in the Asia Pacific region broadly defined nor in the West and challenges the thesis that civilizations are composed of more or less homogeneous cultures The 14 contributors argue that emphasis on minority majority rights is based on uncritically accepted views of purity numerical superiority and social consensus

Korea Under Siege, 1876-1945 Young-Iob Chung,2006-02-23 The Korean economy was transformed from the opening of the hermit kingdom in 1876 to the end of Japanese rule in 1945 In Korea under Siege Young Iob Chung focuses on capital formation economic growth and structural changes The so called miraculous economic development in the southern half of the Korean peninsula has transformed the region from an agrarian economy to that of a major industrial power in a very short time period South Korea is now considered one of a dozen industrialized countries in the world However there has been little careful analysis of the heritage of the Korean economy in the traditional and transitional periods from which it launched into a modern phenomenal economic success The approach in this study is behavioral and analytical more than historical Chung supports this analysis with quantitative data without being mathematical statistical or technical Although narratives of Korean economic history before 1945 are scarce in English Korea under Siege builds its analysis from data and narrative description from English Japanese and Korean language original sources BOOK JACKET **Cuisine, Colonialism and Cold War** Katarzyna J. Cwiertka,2013-06-01 When you consider the size of Korea s population and the breadth of its territory it s easy to see that this small region has played a disproportionately large role in twentieth century history The peninsula has experienced colonial submission at the hands of Japan occupation by the United States and the Soviet Union war and a national division that continues today Cuisine Colonialism and Cold War traces these developments as they played out in an unusual sphere Korea s national cuisine which is savored for its diversity of ingredients and flavor Katarzyna J Cwiertka shows that many foods and dietary practices identified as Korean have been created or influenced by its colonial encounters and she uncovers how the military and the Cold War had an impact on diet in both the North and South Surveying the manufacture and consumption of rice and soy sauce the rise of restaurants wartime food and the 1990s famine that still affects North Korea Cwiertka illuminates the persistent legacy of Japanese rule and the consequences of armed conflicts and

the Cold War Bringing us closer to the Korean people and their daily lives this book shines new light on critical issues in the social history of this peninsula *Coastal Economies, Cultural Accounts* Gísli Pálsson,1994 Pálsson social anthropology U of Iceland examines how indigenous producers and anthropologists portray the interaction between people and the environment in the fishing industry He finds that through history different cultural models reflect different social relations which in turn reflect changes in the resources technology and organization of the industry Of interest to anthropologists and human ecologists Distributed by St Martin s Press Annotation copyrighted by Book News Inc Portland OR *The Guerilla Dynasty* Adrian Buzo,2018-02-19 Throughout the 1990s North Korea has operated under a skeptical international eye due largely to the countrys rigorous self imposed isolation its on going confrontation with South Korea a controversial nuclear arms program and the near total collapse of its economy North Koreas leaders have chosen to face the world with its Stalinist political culture and ideological framework intact for better or worse and by most reports almost exclusively for the worst How did this situation come to be and what are its consequences In *The Guerilla Dynasty* Adrian Buzo gives us an accessible up to date and rigorously researched account of the political economic and foreign policy developments in North Korea since 1945 **Korea Briefing, 1990** Chong-Sik Lee,2019-03-04 This book initiates a series of comprehensive annual reviews of issues and events in the Republic of Korea and on the peninsula as a whole in 1990 It provides both students and specialist with a useful overview of a rapidly changing society **The Political Economy of Korea** J. Uttam,2014-12-10 Korea s twin transitions agrarian to industrial and industrial to post industrial transformed the country s political economy Moving away from the traditional focus on aspects such as market culture and colonialism the author argues that Korea s second state was revitalized through the people s movement and citizens movement *Rural Development* Sung Hwan Ban,Pal Yong Moon,Dwight H. Perkins,2020-03-17 Examines the role of rural development in the overall development of the Korean economy Separate chapters focus on the growth of agricultural productivity sources of agricultural growth regional agricultural production and income government investment policy agricultural credit policy farm price policy the role of local government land reform rural living standards and off farm migration This is one of the studies on the economic and social modernization of Korea undertaken jointly by the Harvard Institute for International Development and the Korea Development Institute **Area Handbook for South Korea** Nena Vreeland,1975 **The Melodrama of Mobility** Nancy Abelmann,2003-09-30 How do people make sense of their world in the face of the breakneck speed of contemporary social change Through the lives and narratives of eight women *The Melodrama of Mobility* chronicles South Korea s experience of just such dizzyingly rapid development Abelmann captures the mood feeling and language of a generation and an era while providing a rare window on the personal and social struggles of South Korean modernity Drawing also from television soap operas and films she argues that a melodramatic sensibility speaks to South Korea s transformation because it preserves the tension and ambivalence of daily life in unsettled times The melodramatic mode helps people to wonder Can individuals be

blamed for their social fates How should we live Who can say who is good or bad By combining the ethnographic tools of anthropology an engagement with prevailing sociological questions and a literary approach to personal narratives The Melodrama of Mobility offers a rich portrait of the experience of compressed modernity in the non West **Top-Down Democracy in South Korea** Erik Mobrand, 2019-04-19 While popular movements in South Korea rightly grab the headlines for forcing political change and holding leaders to account those movements are only part of the story of the construction and practice of democracy In Top Down Democracy in South Korea Erik Mobrand documents another part the elite led design and management of electoral and party institutions Even as the country left authoritarian rule behind elites have responded to freer and fairer elections by entrenching rather than abandoning exclusionary practices and forms of party organization Exploring South Korea s political development from 1945 through the end of dictatorship in the 1980s and into the twenty first century Mobrand challenges the view that the origins of the postauthoritarian political system lie in a series of popular movements that eventually undid repression He argues that we should think about democratization not as the establishment of an entirely new system but as the subtle blending of new formal rules with earlier authority structures political institutions and legitimizing norms *Getting Married in Korea* Laurel Kendall, 1996 This work explores what it means to be modern and what it means to be Korean in a culture where courtship and marriage are often the crucible in which notions of gender and class are cast and recast Touching on a number of important issues identity romantic love women s work marriage negotiations and wedding ceremonies Laurel Kendall gives us a new appreciation for how Koreans have adapted this pivotal social practice to the astounding changes of the past century Kendall attended her first Korean wedding in 1970 soon after she arrived in the country with the Peace Corps Years later as a seasoned anthropologist she began interviewing both working class and middle class couples matchmakers purveyors of dowry goods and proprietors of wedding halls She consulted etiquette handbooks and women s magazines and analyzed cartoons photographs and weddings themselves The result is an engaging account of how marriage matches are made how families proceed through the rites how they finance ceremonies and elaborate exchanges of ritual goods and how these practices are integral to the construction of adult identities and notions of ideal women and men The book is also a reflection on what it means to write Korea in a complex and ever changing social milieu *South Korea* Andrea Matles Savada, William Shaw, 1997-07 Describes and analyzes South Korea s political economic social and national security systems and institutions Examines the inter relationships of those systems and the ways they are shaped by cultural factors Provides a basic understanding of the observed society striving for a dynamic portrayal Particular attention is devoted to the people who make up the society their origins dominant beliefs and values their common interests and the issues on which they are divided the nature and extent of their involvement with national institutions and their attitudes toward each other and toward their social system and political order
