lowest performing student in my class This problem would plague me from middle school to college where I had numerous run ins with getting kicked out of school for violating academic probation and being unable to keep my GPA above 1.7 I chose to take a different approach to learn spending most of my early 20s learning how to learn It ignited my passion for mental development that had led me to help so many others in overcoming the obstacles I've had and I have maintained a successful track record in doing so You can learn ANYTHING Have you ever had trouble with using your mind to your advantage Do you find your thoughts rendered invisible by brain fog Has it always been hard to retain the information you are learning Do you tend to forget even the most important things These problems at face value seem difficult to conquer especially if you don't have methods to help combat these drawbacks I've been there and faced countless instances where I wanted to give up and just assume my brain simply wasn't good enough to achieve the things I wanted it to But believing in lies is a principle nobody should adopt The solution isn't taking a nootropic supplement or having a 95th percentile IQ The solution is adopting a new way of learning and inherently adopting a new lifestyle In the process you redefine your mind as a new mind a mind that is BULLETPROOF programmed to tackle any mental obstacle in its path In Your Mind Bulletproof you'll discover The REAL reason why you have a hard time mastering your mind and can't make it bulletproof The number one technique to improve your memory you could have implemented daily How you can remember things in ways that will fascinate your peers Study and synthesis tactics you can use to connect new information in ways you never had done before Ideas that reassure you mental mastery is NOT genetic and that your thinking power can be constantly improved for the rest of your life How to turn your brain into a mean lean calculating machine The habits and activities that separate the top thinkers from the rest of the world And so much more Many debacles individuals face while learning can be rooted they can be traced back to the way their minds work and how they think But teachings in psychology and neuroscience imply time and time again this is only a phase to progress through and it is NOT a norm to deal with Your Mind Bulletproof will give you a clear blueprint and explain why you may haven't gotten out of this phase in mastering the mind If you have never taken the steps to improve your mind you can still make it bulletproof p If you have had your own experiences with mental fitness this book will still provide you new information to take away that not found in other brain training books So if you want to build the mind you dream about and materialize your bulletproof mind into an object of reality then scroll up to the top of the page and click the buy now with the 2 click button to get your book instantly
