Thomas Rimer, 2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of

perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi

**Forms of Persuasion** Alex J. Taylor, 2022-03-15 Forms of Persuasion is the first book length history of corporate art patronage in the 1960s After the decline of artist illustrated advertising but before the rise of museum sponsorship this decade saw artists and businesses exploring new ways to use art for commercial gain Where many art historical accounts of the sixties privilege radical artistic practices that seem to oppose the dominant values of capitalism Alex J Taylor instead reveals an art world deeply immersed in the imperatives of big business These projects unfolded in Madison Avenue meeting rooms and MoMA galleries but as the most creative and competitive corporations sought growth through global expansion they also reached markets all around the world From Andy Warhol s commissions for packaged goods manufacturers to Richard Serra s work with the steel industry Taylor demonstrates how major artists of the period provided brands with forms of persuasion that bolstered corporate power prestige and profit Drawing on extensive original research conducted in artist gallery and corporate archives Taylor recovers a flourishing field of promotional initiatives that saw artists advertising creatives and executives working around the same tables As museums continue to grapple with the ethical dilemmas posed by funding from oil companies military suppliers and drug manufacturers Forms of Persuasion returns to these earlier relations between artists and multinational corporations to examine the complex aesthetic and ideological terms of their enduring entanglements
