including interviews with former American ambassadors to Ghana as well as other sources to document his study He contends that the Ghanaian army and police officers who overthrew Nkrumah may not have succeeded when they did in ousting Nkrumah had Western powers especially the United States not been involved in the plot to oust him They participated in planning the coup But he also concedes that it is possible the Ghanaian coup makers would have on their own succeeded later in overthrowing Nkrumah Major Akwasi Afrifa one of the leaders of the February 1966 coup in which Nkrumah was ousted planned twice in 1962 and in 1964 to overthrow Nkrumah but the plots were discovered by the security forces before they could be carried out The author acknowledges that Nkrumah had enemies within and faced strong opposition to his rule But he also contends that there was a concerted effort by Western powers especially the United States to overthrow Nkrumah that should not be overlooked when examining his downfall They worked in collusion with his enemies within But even if Nkrumah did not have enemies in Ghana the United States and other Western powers still would have worked on plans to get rid of him because he was considered to be a threat to American and Western interests in Africa The book includes photos His forthcoming book Ghana after Nkrumah complements this work Killing Hope William Blum, 2003-07-31 Is the United States a force for democracy From China in the 1940s to Guatemala today William Blum presents a comprehensive study of American covert and overt interference by one means or another in the internal affairs of other countries Each chapter of the book covers a year in which the author takes one particular country case and tells the story and each case throws light on particular US tactics of intervention **The Peacemakers** Bruce W. Jentleson, 2018-04-24 In the twentieth century great leaders played vital roles in making the world a fairer and more peaceful place How did they do it What lessons can be drawn for the twenty first century global agenda Those questions are at the heart of *The Peacemakers* a kind of global edition of John F Kennedy's *Profiles in Courage* Writing at a time when peace seems elusive and conflict endemic when tensions are running high among the major powers when history has come roaring back when democracy and human rights are yet again under siege when climate change is moving from future to present tense and when transformational statesmanship is so needed Bruce W Jentleson shows how twentieth century leaders of a variety of types national international institutional sociopolitical nongovernmental rewrote the zero sum scripts they were handed and successfully made breakthroughs on issues long thought intractable The stories are fascinating Henry Kissinger Zhou Enlai and the U S China opening Mikhail Gorbachev and the end of the Cold War Dag Hammarskjöld's exceptional effectiveness as United Nations secretary general Nelson Mandela and South African reconciliation Yitzhak Rabin seeking Arab Israeli peace Mahatma Gandhi as exemplar of anticolonialism and an apostle of nonviolence Lech Walesa and ending Soviet bloc communism Gro Harlem Brundtland and fostering global sustainability and a number of others While also taking into account other actors and factors Jentleson tells us who each leader was as an individual why they made the choices they did how they pursued their goals and what they were and weren't able to achieve And not just fascinating but also instructive

Jentleson draws out lessons across the twenty first century global agenda making clear how difficult peacemaking is while powerfully demonstrating that it has been possible and urgently stressing how necessary it is today An ambitious book for ambitious people The Peacemakers seeks to contribute to motivating and shaping the breakthroughs on which our future so greatly depends *Kingmakers: The Invention of the Modern Middle East* Shareen Blair Brysac, Karl E. Meyer, 2009-10-12 A brilliant narrative history tracing today's troubles back to the grandiose imperial overreach of Great Britain and the United States Kingmakers is the gripping story of how the modern Middle East came to be as told through the lives of the Britons and Americans who shaped it Some are famous Lawrence of Arabia and Gertrude Bell others infamous Harry St John Philby father of Kim some forgotten Sir Mark Sykes Israel's godfather and A T Wilson the territorial creator of Iraq All helped enthrone rulers in a region whose very name is an Anglo American invention The aim of this engrossing character driven narrative is to restore to life the colorful figures who gave us the Middle East in which Americans are enmeshed today

Restructuring the African State and Quest for Regional Integration Godfrey Mwakikagile, 2014-07-21 The author looks at different approaches towards regional and continental unity and the need to restructure the African state He contends that reconfiguration of the African state is necessary after the institutions inherited at independence especially centralisation of power have failed to serve the people He calls for decentralisation of power in order to enable the people different groups to set their own agenda for sustainable development Power should be in the hands of the people at the grassroots level using local institutions to formulate development plans control and allocate resources in their own areas Reconfiguration of the African state will also help to accommodate different ethnic groups on equal basis and enable marginalised groups especially smaller and weaker groups to fully participate in the political process and get a fair share of the nation's resources without being dominated and exploited by others especially dominant groups Restructuring the state will also enable all groups to play an equal role in achieving unity stability and development The work is also an examination of the transition African countries have gone through since independence and the problems they have faced and continue to face in terms of nation building and trying to achieve and maintain peace and stability without which prosperity is impossible It is a call for rebuilding Africa through a combination of innovative approaches **An Introduction to Political Science in Nigeria** Adeoye A.
