L Activite Intellectuelle De L Angleterr:

L'activité intellectuelle de l'Angleterre d'après l'ancien "Mercure de France" (1672-1778) Stella Lovering,1930

American History As Interpreted by German Historians From 1770-1815 Eugene Edgar Doll,1948 This is a print on demand edition of an important hard to find publication *The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800* George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

The Theory of Unconscious Intelligence as Opposed to Theism George Sylvester Morris,1880 *Essays on French History and Historians* John Stuart Mill,1985-12-15 J S Mill s deep interest in French intellectual political and social affairs began in 1820 when in his fourteenth year he went to France to live for a year with the family of Sir Samuel Bentham French became his second language and France his second home where he died and was buried in 1873 His interest in history began even earlier when as a child of seven he tried to imitate his father s labours on the History of British India though he never wrote a history in his maturity study of the past remained a passion and helped shape the philosophy of history that informed his views of society and ethics His intense interest in contemporary French politics also led him to seek connections between historical developments and present trends both seen by him from a Radical perspective appropriate to what he believed to be an age of transition The English historians of France including Walter Scott and Thomas Carlyle as well as the French some of whom were themselves political figures are judged by their historical methods but those methods are seen as having practical effects in shaping as well as revealing the mind of the times This volume brings together for the first time the essays running from 1826 to 1849 that meld these abiding interests They give as well insights into Mill s personal aspirations his developing view of comparative politics and sociology his concern for freedom and his feminism During these years Mill worked on a published his System of Logic Book VI of which shows in condensed form the results of the speculations here developed reading these essays with that work which made his reputation as a philosopher enables one to see the effects of romanticism on analytic thought in a way not as clearly evident even in Mill s Autobiography Independently important then the essays in this volume also enable us to interpret anew the practical and theoretical concerns fundamental to his formative years and maturity John C Cairns Introduction demonstrates how the essays reveal through their reactions to the Revolutions of 1789 1830 and 1848 and to French historiography politics and thought the effect of France on Mill s ideas and also the way in which his other concerns influenced his reactions to France The texts with the variants and notes that are the

hallmark of this edition are described in John M Robson s Textual Introduction which explains the editorial principles and methods **Le Socialisme Et L'evolution de L'Angleterre Contemporaine (1880-1911)** Édouard Guyot,1913

Montesquieu and England Ursula Haskins Gonthier,2015-09-30 Gonthier sets Montesquieu s work in the context of early eighteenth century Anglo French relations taking a comparative approach to show how Montesquieu s engagement with English thought and writing persisted throughout his writing career Etudes sur l'Angleterre Faucher,1856 **Revival: A History of Modern Culture: Volume II (1934)** Preserved Smith,2018-01-16 The understanding of history can be advanced only by the combination or alternation of analysis and synthesis Detailed research and generalizing survey are not antiethical but complementary For a long time however the specialist has reigned supreme in our schools The need is now surely for a return to synoptic writing The present work was undertaken to supply the need of a synthesis It is a map of a large region not a geological chart of a square mile or the plan of a single city Its value if any lies in its view of the interrelations of large tracts of social and intellectual life not in the intensive investigation of narrow fields *The Year's Work in Modern*

Language Studies by a Number of Scholars , **La culture et la civilisation Britanniques** Gabriel Dominique Bonno,1948

L'Angleterre et la guerre Charles Cestre,1916 *A History of Modern Culture* Preserved Smith,2014-07-17 Published 1930 4 this two volume work considers the emergence of modern society in the wake of the Protestant reformation

Histoire de la civilisation en Europe François Guizot,1843 **L'Evolution politique de l'Angleterre moderne 1485-1660** Maurice Braure,2012-09-19 Voici un livre dont le besoin se faisait chez nous cruellement sentir En effet si l on excepte quelques ouvrages de grande valeur consacr s surtout au XIXe si cle nous n avons gu re jusqu ici en fran ais sur un sujet aussi capital que des manuels allant en un seul volume l uvre vieillie de Prentout except e du n olithique nos jours L ensemble dont le premier tome para t aujourd hui couvrira de 1485 1832 toute la p riode moderne Depuis le moment o le travail a t entrepris par L on Cahen jusqu la pr sente r alisation les disciplines historiques ont marqu en Angleterre de grands progr s Des domaines jusque l inexplor s ont t tudi s avec une technique nouvelle dont Sir S E Neale et Sir Lewis Namier sont les initiateurs les plus connus Mais combien d autres historiens pourrait on citer aussi dont l apport scientifique et le talent d crivain sont galement brillants Toutes ces acquisitions ont t soulign es avec soin par Maurice Braure cette uvre de synth se les deux auteurs ont apport leur curiosit et parfois leur interpr tation personnelle Et c est fort bien ainsi car il ne saurait tre objectif et lucide encore moins celui qui regarde toujours par les yeux d autrui On ne cherchera pas dans ce livre la vie du peuple britannique sous tous ses aspects ni des annales continues Il s agit comme l annonce le titre de l volution politique de

l'Angleterre et n'ont retenu que les faits qui expliquent cette révolution ou qui ont eu une postérité. On trouvera cependant dans ces pages le mouvant reflet de transformations de toutes sortes qui caractérisent cette époque d'Henry VII la Restauration. Ainsi l'idée et le sentiment d'un style alerte, cette histoire apparaît singulièrement vivante et certains de ses aspects très lointains ont aujourd'hui de surprenantes résonances. Aussi l'ouvrage n'intressera-t-il pas le seul spécialiste mais tout homme cultivé en France, notamment à l'époque de tant de contrastes et de parallélismes avec l'Angleterre suggèrent de si enrichissantes réflexions. Le tome premier retiendra l'attention par l'importance de la période qu'il embrasse et des personnages qui y vivent, cinq rois dont l'extraordinaire Henry VIII, deux reines dont la grande Elizabeth et enfin la République avec Cromwell.
