La Casa De Citas En El Barrio Galante:

El misterio de la casa de citas en el barrio galante y otros cuentos Elsa Levy, 2003 **La Casa de citas** Ava Vargas, 1991

I Speak of the City Mauricio Tenorio-Trillo, 2015-02-24 In this dazzling multidisciplinary tour of Mexico City Mauricio Tenorio Trillo focuses on the period 1880 to 1940 the decisive decades that shaped the city into what it is today Through a kaleidoscope of expository forms I Speak of the City connects the realms of literature architecture music popular language art and public health to investigate the city in a variety of contexts as a living history textbook as an expression of the state as a modernist capital as a laboratory and as language Tenorio's formal imagination allows the reader to revel in the free flowing richness of his narratives opening startling new vistas onto the urban experience From art to city planning from epidemiology to poetry this book challenges the conventional wisdom about both Mexico City and the turn of the century world to which it belonged And by engaging directly with the rise of modernism and the cultural experiences of such personalities as Hart Crane Mina Loy and Diego Rivera I Speak of the City will find an enthusiastic audience across the disciplines *Sex and Sexuality in Latin America* Daniel Balderston, Donna Guy, 1997-02 Organized around three central themes control and repression the politics and culture of resistance and sexual transgression as affirmation of marginalized identity this intriguing collection will challenge and inform conceptions of Latin American sexuality Compromised Positions Katherine Elaine Bliss, 2010-11-01 To illuminate the complex cultural foundations of state formation in modern Mexico Compromised Positions explains how and why female prostitution became politicized in the context of revolutionary social reform between 1910 and 1940 Focusing on the public debates over legalized sexual commerce and the spread of sexually transmitted disease in the first half of the twentieth century Katherine Bliss argues that political change was compromised time and again by reformers own antiquated ideas about gender and class by prostitutes outrage over official attempts to undermine their livelihood and by clients unwillingness to forgo visiting brothels despite revolutionary campaigns to promote monogamy sexual education and awareness of the health risks associated with sexual promiscuity In the Mexican public's imagination the prostitute symbolized the corruption of the old regime even as her redemption represented the new order's potential to dramatically alter gender relations through social policy Using medical records criminal case files and letters from prostitutes and their patrons to public officials Compromised Positions reveals how the contradictory revolutionary imperatives of individual freedom and public health clashed in the effort to eradicate prostitution and craft a model of morality suitable for leading Mexico into the modern era **Argentine, Mexican, and Guatemalan Photography** David William Foster, 2014-10-01 One of the important cultural responses to political and sociohistorical events in Latin America is a resurgence of urban photography which typically blends high art and social documentary But unlike other forms of cultural production in Latin America photography has received relatively little sustained critical analysis This pioneering book offers one of the first in depth investigations of the complex and extensive history of gendered perspectives

in Latin American photography through studies of works from Argentina Mexico and Guatemala David William Foster examines the work of photographers ranging from the internationally acclaimed artists Graciela Iturbide Pedro Meyer and Marcos Lopez to significant photographers whose work is largely unknown to English speaking audiences He grounds his essays in four interlocking areas of research the experience of human life in urban environments the feminist matrix and gendered cultural production Jewish cultural production and the ideological principles of cultural works and the connections between the works and the sociopolitical and historical contexts in which they were created Foster reveals how gender marked photography has contributed to the discourse surrounding the project of redemocratization in Argentina and Guatemala as well as how it has illuminated human rights abuses in both countries He also traces photography's contributions to the evolution away from the masculinist dominated post 1910 Revolution ideology in Mexico This research convincingly demonstrates that Latin American photography merits the high level of respect that is routinely accorded to more canonical forms of cultural production

Espacios de género María Amalia Rubio Rubio, 2005 *Image and Memory* Wendy Watriss, Lois Parkinson Zamora, 1998 FotoFest 1992 a major festival of international photography brought Latin American photography into focus for a wide audience Offering a diverse selection of photographers countries artistic movements and subject matter the show revealed a photographic tradition rich in history and creativity Drawing from the more than 1 000 images exhibited by FotoFest this book documents the work of fifty two photographers from ten countries The photographs range from the opening of the Brazilian frontier in the 1880s to a secret archive of documentary images from El Salvador's recent civil war to works of specifically aesthetic intent Many of the photographs appear here in print for the first time Watriss's opening essay provides the curatorial overview for the book Lois Zamora examines the roots of visual image making in Latin American cultures Boris Kossoy addresses the history of Latin American photography through the nineteenth century while Fernando Castro covers the contemporary scene With its compelling images and English Spanish text this book will serve as a benchmark for future studies of photography in Latin America
