La Chair De La Salamandre Ned:

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857 1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890 1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions
