Lesser Crossroads:

Lesser Crossroads Andrew D. Lellick, Hubert Glasgow Schmidt, 1948 **Somerset County in Vintage Postcards** Alan A. Siegel, 1999-03-01 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication and many of the postcards produced during this golden age can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores across the country survive as telling reminders of an important era in America's history This fascinating new history of New Jersey's Somerset County showcases more than two hundred of the best vintage postcards available

Manhood Enslaved Kenneth Edward Marshall, 2011 Manhood Enslaved reconstructs the lives of three male captives to bring greater intellectual and historical clarity to the muted lives of enslaved peoples in eighteenth and early nineteenth century central New Jersey where blacks were held in bondage for nearly two centuries The book contributes to an evolving body of historical scholarship arguing that the lives of bondpeople in America were shaped not only by the powerful forces of racial oppression but also by their own notions of gender The book uses previously understudied white authored nineteenth century literature about central New Jersey slaves as a point of departure Reading beyond the racist assumptions of the authors it contends that the precarious day to day existence of the three protagonists Yombo Melick Dick Melick and Quamino Buccau Smock provides revealing evidence about the various elements of slave manhood that gave real meaning to their oppressed lives Kenneth E Marshall is Assistant Professor of History at the State University of New York at Oswego

The Story of an Old Farm Or Life in New Jersey in the Eighteenth Century Mellick, 1889 **Monthly Report of the Department of Agriculture** United States Department of Agriculture, 1871 **Report**, 1871 **Handbook of the Linguistic Atlas of the Middle and South Atlantic States** William A. Kretzschmar, William A. Kretzschmar Jr., 1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical

research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches **Catalog of Copyright Entries. Third Series** Library of Congress.
